From the CEO's Desk...

We are pleased to say the new truck parking area is now open. We will be bituminising a section for all weather use however access is now clear for heavy vehicles to park.

Our road works continue with the extension of the bitumen along Valentine St up to McGlew Rd. This will offer better access to Coates Hire and the Concrete plant.

In the coming weeks we will be replacing many plants in the town centre. These plants are intended to help beautify our town and attract native bird life. We ask for your consideration and care when around this newly planted vegetation as these plants may be easily damaged, especially while they are becoming established.

The Shire is currently seeking Expressions of Interest for tenants at our Business Units and Frosty's yard. Interested persons are encouraged to contact the Shire office for more details.
