How are my rates calculated?

How much you pay depends on the value of your property. This value is determined by the State Government's Landgate (formerly Valuer General's Office [VGO]) in one of two ways, depending on the type of property you own:

- For properties that are predominately used for rural purposes, the estimated Unimproved Value (UV) of the land only is used.
 - For properties that are predominately used for residential, industrial and business, the Gross Rental Value (GRV) is used.
- This is the estimate of the total rent that may be received from the property in one year.

This value is then multiplied by the Shire's rate-in-the-dollar to determine your property's annual rates.

For example: GRV of \$250 per week x 52 weeks = \$13,000.

\$13,000 x rate-in-the-dollar = Rates total.

The Shire's rate-in-the-dollar is determined each year at budget time. Rates-in-the-dollar may vary for different categories of UV or GRV properties. This is called a Differential Rating System. Each year a minimum rate applies which is the minimum amount any property owner will be asked to contribute. This ensures a fair contribution is made by all property owners, regardless of their property's value. For any enquires regarding valuation related issues, please contact Landgate via email: vs@landgate.wa.gov.au or visit the Landgate website: www.landgate.wa.gov.au/valuations/valuations-for-rates-and-taxes
