OFFICER'S RECOMMENDATION/ RESOLUTION**220309****Moved: Cr Katona****Seconded: Cr Coaker****That Council**

1. Adopt the Council Policy – ELM 20 Appointment of a Temporary or Acting Chief Executive Officer

CARRIED BY ABSOLUTE MAJORITY 5/0

Cr Harris joined the meeting at 5:41pm

PURPOSE

For Council to adopt a Policy to meet the requirements of Section 5.39C of the Local Government Act 1995 (the Act).

DETAIL

Under contract the Shire's Chief Executive Officer is entitled to 5 weeks annual leave each year (accrued if not taken), as well as personal leave and other forms of leave.

Under the current Policy EMP10 the CEO's leave is reported to Council through the Executive Manager Corporate and Community Services report each month, with the nature of the reporting being to determine the entitlement to leave under contract and that the CEO had sufficient leave credits. In general, the CEO works with the Shire President to ensure any leave or absences from the office are well managed and organised.

The current Council Policy ELM 20 Appointment of an Acting Chief Executive Officer only makes two statements as content:

1. Appointment of a person to a designated senior employee position on a temporary or acting basis will be in accordance with s. 5.39 (1a) of the Local Government Act.

2. In the event of an unforeseen absence of the Chief Executive Officer (CEO) then the default Acting CEO will be the Executive Manager of Corporate Services, for

a period not exceeding ten (10) working days.

Specifically, section 5.39(1a) of the Act, allows that an employee may act in the position of a CEO or a senior employee for a term not exceeding one year without a written contract for the position in which he or she is acting.

Under section 5.37 of the Act, the CEO is to inform Council of each proposal to employ or dismiss a senior employee, other than a senior employee referred to in section 5.39(1a).

In 2021, with the implementation of model standards for CEO recruitment section 5.39C was added to Act requiring Council's to adopt a policy for temporary employment or appointment of CEO. The policy must set out the process to be followed by the Local Government in relation to the employment of a person in the position of CEO for less than a year or the appointment of an employee to act in the position of CEO for a term not exceeding 1 year.

Upon review the existing Council Policy ELM 20 does not meet the requirements of 5.39C as it does not set out a clear process it just makes two broad statements.

As such the Chief Executive Officer contacted WALGA to see if a model template for this Policy had been prepared for the sector. Subsequently, the CEO has modified the template provided to incorporate relevant roles and wording for the Shire of Morawa but the general form and substance of the attached version of ELM 20 for readoption is based on the template which can be viewed as standard practice across the sector.

Essentially the Policy empowers the CEO to appoint an Acting CEO out of the Shire's existing Senior Employees being the EMCCS and EMWA, when the CEO is on leave for a period of between 72 hours and 6 weeks.

The Shire of Morawa only has two senior employee positions other than the CEO and they both perform functions on the Senior Management Team. It is part of the position description and recruitment of each of these roles that they should have capability to act up if required for a short period.

In theory the Shire could operate without an Acting CEO for short leave periods, but this presents a risk in terms of business continuity, use of delegations and authority, staff management and completion of tasks. By appointing an Acting CEO for a short period, it provides a level of certainty to the organisation, and it also offers existing senior employees the opportunity to upskill and gain exposure to the CEO duties in case it is ever needed for an extended period.

In terms of efficiency and business continuity it makes sense for the CEO to administer a level of control over short-term Acting appointments, as the CEO will be aware of leave needs, employee workload and impending deadlines, also the calling of special council meetings for short term appointments seems an inefficient use of Councillor time. In terms of risk, when employing the two senior officers the CEO will be gauging their suitability for acting up. The impact of short-term acting functions can still be considerable depending on the actions taken but by engaging existing employees it ensures some level of consistency in the role for Council and the community.

The likelihood of Council engaging an external party for 6 weeks or less is low given the more established acting CEOs generally desire longer contracts with higher remuneration.

The policy provides a process for Council to appoint an Acting CEO for periods of greater than 6 weeks – either from the internal resources or external recruitment.

The policy differentiates between an Acting CEO and Temporary CEO by virtue of the position of the substantive CEO. If the substantive CEO is still engaged but on leave, then the person is Acting whereas if the substantive CEO is or has ended then the person is Temporary to facilitate the commencement of a new substantive CEO. All decisions about a Temporary CEO rest with Council.

LEVEL OF SIGNIFICANCE

Medium – The Shire needs to update its Policy in line with legislation and the proposed changes seek to make the process of appointing an Acting CEO more efficient with the CEO's impending leave approaching in May.

LEGISLATION AND POLICY CONSIDERATIONS

Local Government Act 1995

5.36. Local government employees

(1) A local government is to employ —

(a) a person to be the CEO of the local government; and
(b) such other persons as the council believes are necessary to enable the functions of the local government and the functions of the council to be performed.

(2) A person is not to be employed in the position of CEO unless the council —

(a) believes that the person is suitably qualified for the position; and
(b) is satisfied* with the provisions of the proposed employment contract.

* Absolute majority required.

(3) A person is not to be employed by a local government in any other position unless the CEO —

(a) believes that the person is suitably qualified for the position; and
(b) is satisfied with the proposed arrangements relating to the person's employment.

(4) Unless subsection (5A) applies, if the position of CEO of a local government becomes vacant, it is to be advertised by the local government in the manner prescribed, and the advertisement is to contain such information with respect to the position as is prescribed.

(5A) Subsection (4) does not require a position to be advertised if it is proposed that the position be filled by a person in a prescribed class.

(5) For the avoidance of doubt, subsection (4) does not impose a requirement to advertise a position before the renewal of a contract referred to in section 5.39.

[Section 5.36 amended: No. 49 of 2004 s. 44; No. 17 of 2009 s. 21.]

5.36. Senior employees

- (1) A local government may designate employees or persons belonging to a class of employee to be senior employees.
- (2) The CEO is to inform the council of each proposal to employ or dismiss a senior employee, other than a senior employee referred to in section 5.39(1a), and the council may accept or reject the CEO's recommendation but if the council rejects a recommendation, it is to inform the CEO of the reasons for its doing so.
- (1) Unless subsection (4A) applies, if the position of a senior employee of a local government becomes vacant, it is to be advertised by the local government in the manner prescribed, prescribed.
- (4A) Subsection (3) does not require a position to be advertised if it is proposed that the position be filled by a person in a prescribed class.
- (2) For the avoidance of doubt, subsection (3) does not impose a requirement to advertise a position where a contract referred to in section 5.39 is renewed.

[Section 5.37 amended by No. 49 of 2004 s. 45 and 46(4); No. 17 of 2009 s. 22.]

5.39. Contracts for CEO and senior employees

- (1) Subject to subsection (1a), the employment of a person who is a CEO or a senior employee is to be governed by a written contract in accordance with this section.
- (1a) Despite subsection (1) —
- (a) an employee may act in the position of a CEO or a senior employee for a term not exceeding one year without a written contract for the position in which he or she is acting; and
- (b) a person may be employed by a local government as a senior employee for a term not exceeding 3 months, during any 2 year period, without a written contract.
- (2) A contract under this section —
- (a) in the case of an acting or temporary position, cannot be for a term exceeding one year;
- (b) in every other case, cannot be for a term exceeding 5 years.
- (3) A contract under this section is of no effect unless —
- (a) the expiry date is specified in the contract; and
- (b) there are specified in the contract performance criteria for the purpose of reviewing the person's performance; and
- (c) any other matter that has been prescribed as a matter to be included in the contract has been included.
- (4) A contract under this section is to be renewable and subject to subsection (5), may be varied.
- (5) A provision in, or condition of, an agreement or arrangement has no effect if it purports to affect the application of any provision of this section.
- (6) Nothing in subsection (2) or (3)(a) prevents a contract for a period that is within the limits set out in subsection 2(a) or (b) from being terminated within that period on the happening of an event specified in the contract.
- (7) A CEO is to be paid or provided with such remuneration as is determined by the Salaries and Allowances Tribunal under the Salaries and Allowances Act 1975 section 7A.
- (8) A local government is to ensure that subsection (7) is complied with in entering into, or renewing, a contract of employment with a CEO.

[Section 5.39 amended by No. 49 of 2004 s. 46(1)-(3); No. 2 of 2012 s. 13 (correction to reprint in Gazette 28 Mar 2013 p. 1317).]

5.39 C. Policy for temporary employment or appointment of CEO

(1) A local government must prepare and adopt* a policy that sets out the process to be followed by the local government in relation to the following —

- (a) the employment of a person in the position of CEO for a term not exceeding 1 year;
- (b) the appointment of an employee to act in the position of CEO for a term not exceeding 1 year. * Absolute majority required.

(2) A local government may amend* the policy. * Absolute majority required.

(3) When preparing the policy or an amendment to the policy, the local government must comply with any prescribed requirements relating to the form or content of a policy under this section

(4) The CEO must publish an up-to-date version of the policy on the local government’s official website.

[Section 5.39C inserted: No. 16 of 2019 s. 22.]

FINANCIAL AND RESOURCES IMPLICATIONS

In general, when the Shire budgets employee costs it budgets to cover leave and higher duties for staff members to ensure they are remunerated for taking on extra responsibility.

RISK MANAGEMENT CONSIDERATIONS

The outbreak of Covid has demonstrated the need to be flexible and by increasing the efficiency with which an Acting CEO can be appointed it allows the Shire to respond to situations as they arise.

The risk of not having an Acting CEO in place when the CEO is uncontactable or unable to assist for a period over three (3) days is that employees tend to make rushed decisions or act without authority, both of which impose a risk upon the Shire.

There are risks associated with stepping up a Senior Employee into the CEO role if they aren’t able to perform all the duties but for a short-term basis the impact of this is minor and it provides a development opportunity that might benefit the Shire in the future.

CONCLUSION

The CEO has prepared a revision to ELM 20 to align with the requirements of Section 5.39C of the Act and the Policy template provided by WALGA.

That Council

- 1. Direct the Chief Executive Officer to respond to the Department of Infrastructure, Transport, Regional Development and Communication's Phase 3 Local Road and Community Infrastructure Program funding allocation to the Shire of Morawa of \$797,854, requesting to allocate the funds to:**
 - Morawa Recreation Centre Roof Replacement - \$422,000**
 - Town Hall Storage and Improvements - \$200,000**
 - Cemetery Entrance and Car Park Sealing and Landscaping - \$175,854**
- 2. Direct the CEO, upon acceptance of the project proposals by the department, commencing works on the Phase 3 projects as soon as possible to ensure funds are fully expended by June 2023.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

For Council to endorse the projects to be nominated under the Local Road and Community Infrastructure Program (LRCIP) Phase 3 to the Federal Government.

DETAIL

On 22 May 2020 the Australian Government announced a new \$500 million Local Roads and Community Infrastructure Program (LRCI Program). Through the 2020–21 Budget, the Australian Government announced a \$1 billion extension of the LRCI Program, following strong community and local government support.

This program supports local councils to deliver priority local road and community infrastructure projects across Australia, supporting jobs and the resilience of local economies to help communities bounce back from the COVID-19 pandemic.

Following strong community and local government support, the Australian Government has committed to Phase 3 of the Local Roads and Community Infrastructure (LRCI) Program. An additional \$1 billion announced in the 2021-22 Budget will continue to boost Australia's economic recovery. This brings the total Australian Government commitment to the LRCI Program to \$2.5 billion.

Under Phase 3 of the program the Shire is able to apply for a maximum grant amount of \$797,854. Applications must be received by 30 June 2022 and construction activity must be complete by 30 June 2023.

A general principle of this grant is that it must be in addition to the normal budgetary expenditure of the Shire and the Shire must maintain capital expenditure at pre-grant levels.

The grant amount represents a significant amount of funding and allows the Shire to deliver on long held high-cost goals that are difficult to achieve within annual budgets.

The Shire has identified three projects that require substantial investment but work to achieve long held goals in both a community and infrastructure context.

Project 1

Eastman Poletti Sherwood Architects inspected the roof of the Morawa Recreation Centre roof on the 16 February 2022 following reports of water leaks in the main hall and squash courts.

The Recreation Centre was constructed c.1984. The steel framed roof is pitched at 7½° and is clad in Colourbond steel. The roof materials are original, and it appears that aside from minor works to attempt to repair leaks and damage to skylights that the roof remains as installed.

General findings:

| Roof Area | Condition | Notes |
|---------------|--------------|---|
| Lower Roof | Fair-Good | Meeting rooms/ablutions – some areas where sheeting has weathered back to substrate silver metal, fixing heads are rusted, paintwork to roof steelwork is in poor condition. Consider use of double glazed sky lights when replacing. |
| Upper Roof | Fair | Main hall/Squash Courts – full length sheets from ridge to eaves, area of corrosion on the west side coinciding with water penetration, corrosion on east side coinciding with repair work, corrosion hole near squash court eaves, defective paint treatment, poor paint condition peeling throughout but not excessive corrosion, |
| Wall Sheeting | Fair to Good | Fixing heads are corroded, generally sheeting in good condition, paintwork in poor condition. |
| | | |

Eastman Polletti suggest a variety of short term solutions that will resolve some of the immediate corrosion and water ingress issues:

- a. Complete clean of all gutters

- b. Seal joins with non-silicone adhesive
- c. Clean pan flashings of the skylights and consider replacement with double glazed or alternatively just cap and remove sky lights if they aren't utilised.
- d. Try to replace roof fixings with a larger silicone washer protected with a solid washer – however there is a risk the current fittings will break when unscrewing due to corrosion which will pose a bigger problem or alternatively just rust treat the existing fittings
- e. Remove previous repairs and surface patch with an adhesive flashing roll
- f. Clean the roof and paint with metalfix
- g. The paintwork to the steel requires addressing and consideration should be given to the use of polyurethane or epoxy protective coating paint systems rather than traditional decorative paint systems so as to achieve a longer paint life.

Without this maintenance work the roof would be compromised and require replacement within 5 years. With the repairs its life could be extended by another couple of years but require annual review.

In the longer term a full roof replacement will be needed and after brief discussions with the Department of Local Government Sport and Cultural Industries, it has become apparent that it would be highly unlikely that the Shire would be able to access CSRFF funding for the roof replacement.

The roof space is 1250 sqm and made of Colourbond corrugated roof sheeting. Safety wire, gutters and flashings would also need to be replaced. Improvements in technology and transport mean the lapped sheets will be able to be replaced with full length sheets. the insulation should be replaced and the eaves purlins should be rust treated, or possibly replaced depending on the extent of corrosion. the downpipe to the spreaders from the top roof the lower roof should be turned through 90° and extended down across the lower roof by about 400mm to ensure there is no chance of water from the spreader getting pushed back up under the lower roof apron flashing. to install full tray over flashings behind skylights back to wall to avoid soaker flashings behind skylights

The relatively inert environment in Morawa has meant that the Shire have benefited from extra life of the roof and wall cladding materials. For some time, the Recreation Centre roof has been allowing water seepage that has caused the roof support structures to rust causing instability. On top of this the water leakage is also beginning to cause damage to the Recreation Centre sprung floor which is expensive to replace and maintain. As a short term measure the Shire's building maintenance officer has patched various holes on the roof but this is not a viable long-term solution. But a more substantial fix is required next financial year.

The Shire could invest \$100-200K undertaking the repairs as detailed by Eastman Polletti, however this may only delay a full replace by 2-5 years, at which point further investment would be needed.

Alternatively, the Shire could commit to the full replacement of the recreation centre roof, with the goal of utilising technology improvements to secure another 40-year life from the facility. The Shire could also look to have the roof cyclone rated in case of future cyclone events. Initial indications are that in the current market a full roof replacement would cost \$400-500K. Whilst this represents a significant investment,

given current inflation, this cost could be substantially more in 2-3 years' time.

Based on the LRCI funding and the other projects proposed it is proposed that the Shire allocate \$422,000 of the grant funding towards this project. It is hoped with the right scoping and market conditions that the works would be able to be completed for this amount but Should all the tenders come in above this amount the Shire may need to draw on reserve or budget reallocations to complete the works. If the cost goes above \$500K it might be worth just completing substantial repairs and foregoing a full replacement until a time when the market is less inflated with building works.

Project 2

Another value-add project that is on the Shire’s long-term radar is the enhancement of the Morawa Town Hall to incorporate a dedicated storage space and refloored entrance area. The Cultural Precinct Master Plan made provision for a storage facility adjacent to the town hall to allow tables, chairs, and other items to be removed from the foyer area. Moving forward with this plan would allow the foyer area to be opened and would add to the aesthetics and useability of the facility.

Initial quantity surveyor cost estimates indicate that storage for the hall and new access doors with appropriate levels would costs approximately \$165,000. Given the current market and to undertake the flooring and enhance the landscape around the storage unit with a usable pathway and potentially with a rainwater tank it is suggested the Shire budget \$200,000 for these works.

Project 3

The Shire also proposes to enhance the cemetery entrance area looking to initially seal the carpark and driveway and update some of the landscaping. High level project scoping and budgeting suggest a project budget of \$175,854 should be adequate for the proposed works, being:

| Works | Budget | Notes |
|---------------------|----------|---|
| Earthworks and Prep | \$80,000 | Shire crew to clear, widen, prepare, and cart material |
| Sealing | \$46,560 | 6m width for 640m length and 40 by 40 car park. |
| Landscaping | \$20,000 | Plastic white picket fence and general beautification |
| Kerbing | \$24,000 | Kerbing around car park and some of entrance road approx. 600m. |
| Contingency | \$5,294 | Cover various other unexpected project costs |

With the cemetery being a key visiting point for many it seems like a positive use of these funds to enhance the area, as it will benefit both the local community and visitors.

Given the necessity to continue to expend the usual capital works expenditure the Shire needs to focus on outsourceable projects or reallocate capital funds elsewhere to make use of in-house resources.

All these three projects seek to enhance existing Shire assets and do not establish new assets, this is a critical part of the Shire’s long term financial planning to ensure asset depreciation is manageable and the Shire’s asset burden does not continue to increase.

The majority of the spend is focussed on the Recreation Centre roof and if this funding isn’t used for this purpose at some stage in the future another source would need to be found or Shire funds would have to be utilised as the roof integrity has been undermined.

As such the administration proposes to submit the below to the Department of Infrastructure, Transport, Regional Development and Communications:

| Project | Infrastructure Type | Budget |
|------------------------------------|---|------------------|
| Recreation Centre Roof Replacement | Community - Improvement to community facility/sporting and recreation facilities | \$422,000 |
| Town Hall Improvements | Community - Improvement to community facility | \$200,000 |
| Cemetery Entrance and Car Park | Combination - Road reconstruction/sealing/off road car parks/landscaping improvements | \$175,854 |
| | Total Grant Allocation | \$797,854 |

LEVEL OF SIGNIFICANCE

Medium – The Shire still has time to submit its work program under the LRCI Program but the more time elapsed reduces the planning and construction time available in a challenging market.

FINANCIAL AND RESOURCES IMPLICATIONS

This funding is untied and does not require any matching contribution, but the Shire must maintain capital expenditure next year to remain eligible.

RISK MANAGEMENT CONSIDERATIONS

The recreation centre roof project seeks to alleviate a risk to community safety and asset life. The other two projects are nice to haves and have minimal risks associated with them other than the benefits realised may not warrant the investment. Given the Cultural Precinct master plan has provisioned for storage in the past and the cemetery is generally well visited and entrance aesthetics make a big difference to people's moods when visiting, it is unlikely investing in these areas would have negative reputational affects.

CONCLUSION

The Shire needs to look to allocate \$797,854 of grant funding to Local Road or Community Infrastructure Projects. The three projects proposed are the improvements to the Recreation Centre Roof, Town Hall Storage and surrounds, and Cemetery entrance and carpark beautification.

 - h. All drill holes are to be capped as soon as possible/practical after drilling; and**
 - i. No drilling is to occur within any Shire gravel pits.**

CARRIED BY SIMPLE MAJORITY 6/0

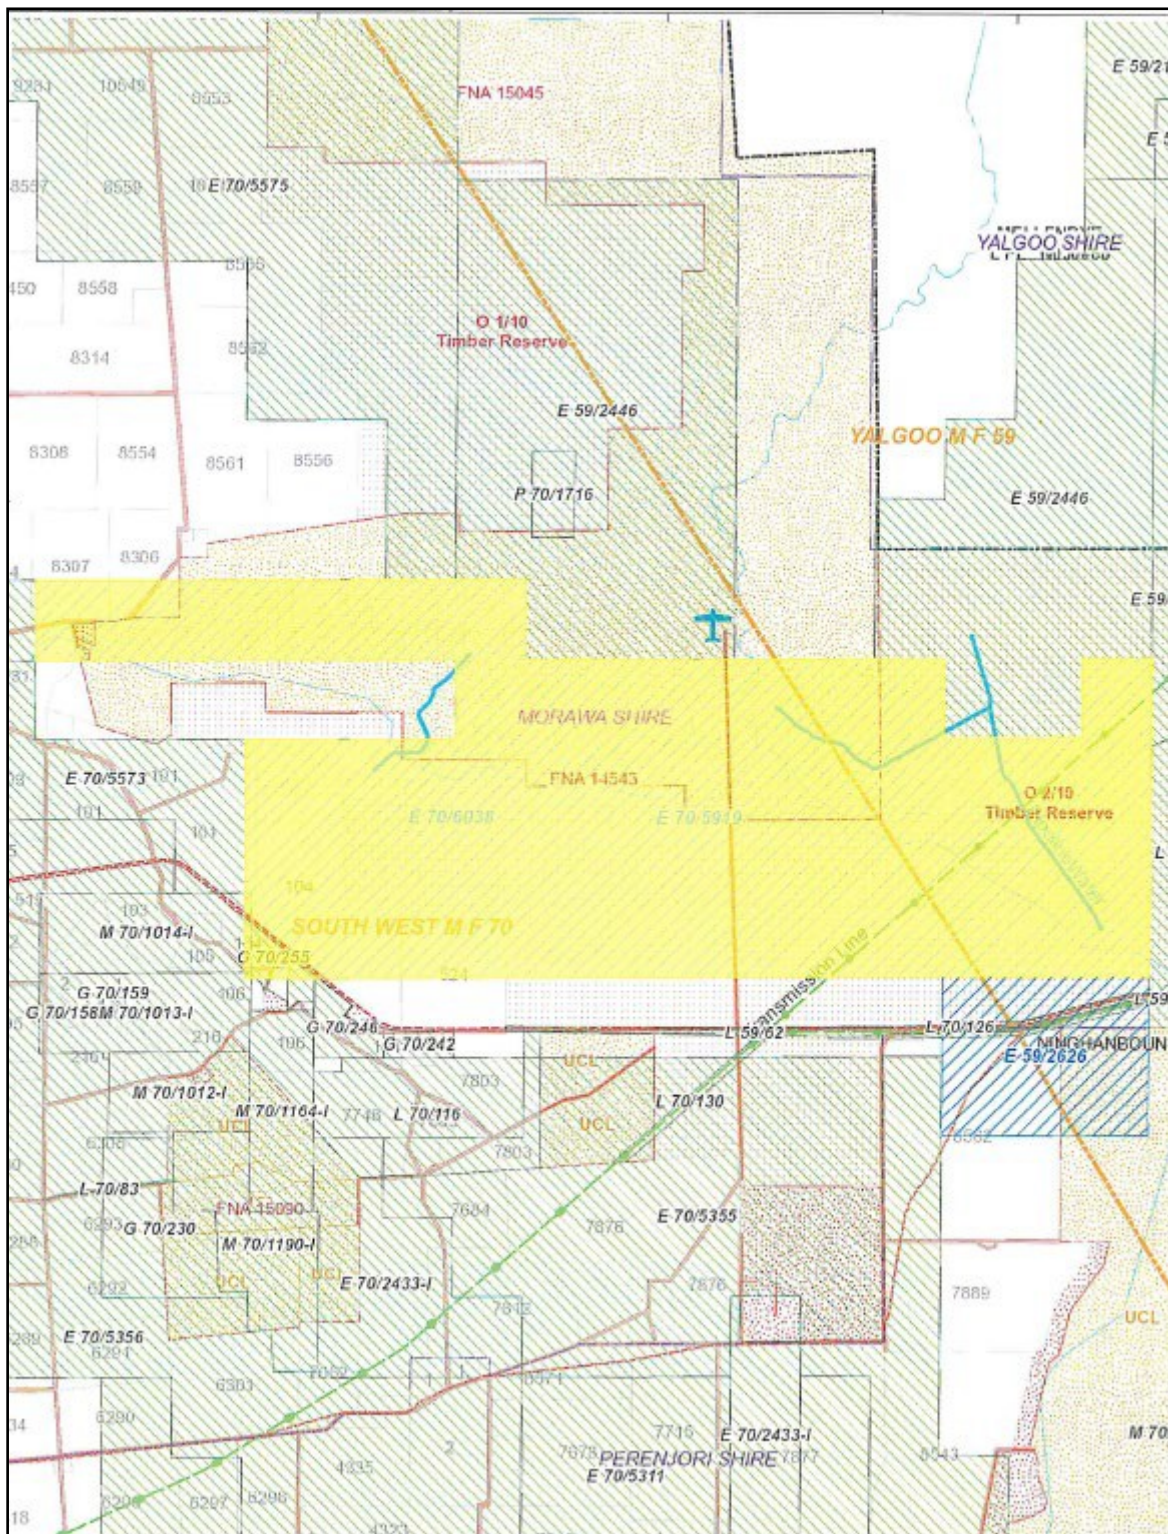

PURPOSE

This report seeks Council's consideration in relation to an exploration license over various lots that has been submitted on behalf of Enterprise Metals Limited, by Mining Titles Solutions.

DETAIL

Council has received notice of an application for an exploration licence from Mining Titles Solutions for a mining exploration licence over various lots in the locality of south Morawa.

The land subject to the application is a combination of privately owned land and State reserves. A copy of the application is included as *Attachment 1*.

Exploration Licence Application No.70/6038

Where Council believes there are good grounds to raise an objection to the application, an objection may be lodged to the application with the Mining Registrar within 21 days of being served the Notice (before 8 March 2022). In relation to the matter before Council, the Shire is not aware of any such grounds to raise an objection to the application.

Under Sections 23 to 26 of the *Mining Act 1978*, mining may be carried out on certain classes of land with the written consent of the Minister for Mines and Petroleum. The *Mining Act 1978* and its associated Regulations sets out the process for a variety of licences and lease types, including requirements for mineral exploration. A guideline summary of exploration licences from Department of Mines and Petroleum documentation is provided as follows:

12. Exploration Licence

- *On 28 June 1991 a graticular boundary (or block) system was introduced for Exploration Licences.*
- *The minimum size of an Exploration Licence is one block, and the maximum size is 70 blocks, except in areas not designated as mineralised areas, where the maximum size is 200 blocks.*
- *An Exploration Licence is not marked out.*
- *An application may be made at any Mining Registrar's office (see Appendix A); or lodged electronically via the department's website using MTO.*
- *An application fee and rental is payable.*
- *There is no limit to the number of licences a person or company may hold but a security (\$5,000) is required in respect of each licence.*
- *Term and Compulsory Surrender:*
 - *For licences applied for prior to 10 February 2006, the term is five years plus two possible extensions of two years and further periods of one year thereafter. At the end of both the third and fourth year of its term, the licensee is required to surrender 50 per cent of the licence.*
 - *For licences applied after 10 February 2006, the term is five years plus possible extension of five years and further periods of two years thereafter, 40 per cent of ground to be surrendered at the end of year six.*
- *The holder of an Exploration Licence may in accordance with the licence conditions, extract or disturb up to 1000 tonnes of material from the ground, including overburden, and the Minister may approve extraction of larger tonnages.*

Source: – Exploration Licence Guidelines from DMP Mining Act Guidelines Basic Provisions.

An exploration licence remains in force for a period of 5 years although this can be extended by the Minister for Mines and Petroleum.

LEVEL OF SIGNIFICANCE

Low significance – response required to be lodged at the mining register's office on or before 8 March 2022.

Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER/AUDIT AND RISK COMMITTEE RECOMMENDATION**220312****Moved: Cr Harris****Seconded: Cr Stokes****That Council:**

- 1. Note and accept the Compliance Audit Return (Attachment 1) for the local government of the Shire of Morawa for the period 1 January 2021 to 31 December 2021; and**
- 2. Request the Chief Executive Officer to submit a certified copy of the Compliance Audit Return to the Director General of the Department of Local Government Sport and Cultural Industries by 31 March 2021.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

The Department of Local Government, Sport and Cultural Industries (the Department) has distributed the 2021 Compliance Audit Return for completion by the Shire of Morawa. The Compliance Audit Return is one of the tools that allow the Audit Committee and Council to monitor how the organisation is functioning. The Compliance Audit Return is required to be presented to Council for adoption before its submission to the Department.

Each local government is to carry out a compliance audit for the period 1 January to 31 December each year against the requirements included in the Compliance Audit Return (Return) set out by the Department of Local Government Sport and Cultural Industries (the Department).

DETAIL

The Return places emphasis on the need to bring to Council's attention cases of non-compliance or where full compliance was not achieved. In addition to explaining or qualifying cases of non-compliance. The return also requires Council to endorse any remedial action taken or proposed to be taken in relation to instances of non-compliance.

This year's Return has again been prepared by electronic means and will be submitted electronically to the Department.

The Compliance Audit Report for 2021 for the Shire of Morawa will be presented for review at the ordinary meeting of Council being held on 17 March 2021.

In comparison to 2020 when various areas of non-compliance were identified including in the areas of Annual Returns and various Registers, most areas of the 2021 return have been deemed fully compliant.

The only area of improvement/non-compliance that was evident in 2020 and in 2021 is the Financial Management Review. Whilst this review was not completed prior to December 2021, if challenged the Shire would argue that the impact of Cyclone Seroja meant that a multitude of task were delayed or impacted. The Financial Management Review has now been completed and is presented to the March 2022 meeting for acceptance which will mean next years Return will be compliant in this area.

Whilst the Shire has fixed the issue in terms of reporting Councillor Training on the website, it should be noted that a number of Councillor's training requirement have not been met in terms of mandatory requirements and once reforms are implemented this may lead to Councillors being stood down.

The only other areas of non-compliance in 2021 are:

Adoption of Model Code of Conduct for Council – was 17 days late due to Council meeting timing, although the regulations essentially implement the model code if no Shire specific code was adopted within 3 months. Had zero operational impact.

Corporate Business Plan – the Local Government (Administration) Regulations 1996 require the Corporate Business Plan to be reviewed annually. The Shire hasn't reviewed its Corporate Business Plan since November 2019. Given the corporate business plan represents how the Shire will utilise its resources to work towards achieving the Strategic Community Plan, it makes sense to hold off on reviewing this document until after the major review of the Strategic Community Plan. The CEO's plan moving forward is to incorporate the capital works plan and more financial information within the Corporate Business Plan to make the annual review process more valuable and relevant to the organisation. Given Covid and a Cyclone over the last two years the Shire has been operating more in a flexible response state with more response and recovery focus than aligned to the strategic framework, this seems completely valid given these unpredictable times.

In terms of the Tender section, the Shire actually undertook zero tenders under the formal tender process and utilised the WALGA Preferred Supplier Program for all large purchase transactions, these purchases are thus tender exempt but the Shire did report them in the Tender register for transparency purposes.

LEVEL OF SIGNIFICANCE

Medium – requirement under *Local Government Act 1995* administered by the Department.

That Council:

- 1. Approve the donation of an old park bench to the Morawa CRC**
- 2. Support the Morawa CRC's grant application to LinkWest for the Purple Bench Program**
- 3. Approve the Shire to install the Purple Bench at the front of the Morawa CRC (Winfield street footpath) once it has been prepared by the CRC for installation.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To consider and approve the Morawa CRC's request to install a purple bench at the front of their centre.

DETAIL

The Morawa CRC wish to apply for a grant through LinkWest to implement a purple bench at the front of their centre.

The grant is designed to allow CRC centres to provide permanent reminders that their centres are safe and confidential spaces for women to visit with their children.

The purple bench movement aims to honour the memory of women murdered by their partners and provide help numbers for people experiencing Domestic Violence.

The purple bench would have a stainless-steel plaque with the wording *"In honour of all victims of domestic homicide in WA. If you need advice and support, please phone: Women's DV helpline: 9223 1188 or 1800 007 339"*.

The CRC wish to have the bench located at the front of their centre in the area as per the below picture.

The Shire has identified that it has an old bench located at the depot that could be donated to the CRC for them to sand and paint. The Shire team would then install the bench to ensure it is safe for use.

An alternate option is to allow the CRC to paint an existing bench with the most appropriate being the one between the CRC and IGA entrance. This option is simpler and achievable but is slightly further from the CRC entrance. Also adding extra seating on the main street may not be a bad thing as the current seating is well utilised at times.

The Shire would make it clear to the CRC that the maintenance of the bench is their responsibility and if it starts to look heavily worn or damaged then the Shire would reserve the right to remove.

In general it seems to be a positive idea for the Shire to support a message of this kind and a purple bench on the main street is likely to add to the aesthetics of the main street adding a sense of uniqueness/quirkiness.

LEVEL OF SIGNIFICANCE

Low significance – If the Council does not support the proposed location of a bench on the main street an alternative location can be used, the CRC have indicated they could put a bench in the courtyard or foyer area but this is not spreading the same welcoming message.

CONSULTATION

Morawa CRC

LEGISLATION AND POLICY CONSIDERATIONS

Nil

FINANCIAL AND RESOURCES IMPLICATIONS

The Shire would look to donate an old bench that is not currently in use and would likely just fall into a state of disrepair if not used – no financial impact.

It would likely take two staff members an hour to install the bench – approximate cost to the Shire \$100.

The CRC would utilise the grant and seek local support to sand, paint, and order a plaque for the bench.

RISK MANAGEMENT CONSIDERATIONS

There is always a risk with something different on a main street that people don't like it but given the existing facade of the CRC building, a purple bench is unlikely to diminish the aesthetics of the area.

CONCLUSION

It is recommended that the Shire support the CRC in this purple bench initiative, provide an old bench to be used and install it at the front of their building once painted.

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

The Statement of Financial Activity is prepared to provide Council with a comprehensive report on the financial position on a monthly basis.

The Statement of Financial Activity Report will include the Monthly Financial Report, Bank Reconciliation Report and the List of Payments made.

DETAIL

In accordance with the provisions of Section 6.4 of the *Local Government Act 1995* and Regulation 34(1) of the *Local Government (Financial Management) Regulations 1996*, a local government is to prepare each month a Statement of Financial Activity (**Attachment 1**) reporting on the revenue and expenditure as set out in the Annual Budget each month.

Under the regulations the report must include the following items,

- Annual Budget estimates
- Budget estimates to the end of the month to which the statement relates,
- Actual amounts of expenditure, revenue, and income.
- Material variances between budget and actual

- Net current assets
- The report is to be accompanied by documents containing an explanation of the net current assets, material variances and other relevant supporting documentation.

As part of the monthly report a bank reconciliation report will be completed and included as **Attachment 2**. The summary of the report for 28 January is as follows:

| Account | Balance |

OFFICER'S COMMENTS

The month of February continues to show income being lower than budgeted. This is due mainly to DRFWA funding not yet being received. CARRIED SIMPLE MAJORITY 6/0

PURPOSE

The purpose of this report is to present to the Audit & Risk Management Committee (ARMC) the Financial Management Review 2022 (FMR).

DETAIL

In accordance with Regulation 5(2)(c) of the Local Government (Financial Management) Regulations 1996, local government CEOs are to undertake reviews of the appropriateness and effectiveness of the financial management systems and procedures of the local government not less than once in every three financial years and report to the local government the results of the reviews.

RSM Australia were engaged to undertake the review in January 2022. Their report is attached. ***(Attachment 1)***

The previous FMR was conducted in 2016 and the findings reported to Council in July 2016 and the current review is 2 years overdue.

The CEO on reviewing the local governments financial management systems and the report submitted by RSM has deemed the Shire's financial management as adequate and effective for an organisation of this size.

From the FMR report provided management have produced a Status Report ***(Attachment 2)*** that lists all the functions reviewed and where reported the issues identified and the planned actions to remedy the issues. This report will be updated regularly and presented to the ARMC for review.

The details of the report have been through the Audit and Risk Committee which met on the 10 March 2022

RISK MANAGEMENT CONSIDERATIONS

Findings outlines in the FMR report are assigned a risk rating. These ratings are based on the audit team’s assessment of risks and concerns with respect to the probability and/or consequence of adverse outcomes if action is not taken. Preparation of a schedule of management actions and reporting progress to the ARMC ensures findings are appropriately addressed.

CONCLUSION

Whilst there are several areas where Council’s systems and procedures can be improved, there are many areas where the controls in place are of a good standard.

OFFICER/AUDIT AND RISK COMMITTEE RECOMMENDATION

220317 Moved: Cr Stokes Seconded: Cr Harris

That Council:

- 1. Endorses the report (as attached) addressing the matter identified as significant by the auditor in the audit report relating to the Shire's Annual Financial Report 2020-2021**
- 2. Endorses the CEO to distribute the report on the Shire website and to the Minister for Local Government in compliance with the Local Government Act.**
- 3. Require progress updates on implementation of the proposed management actions at the next Audit & Risk Management Committee meeting.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To ensure compliance with Section 7.12A of the Local Government Act 1995 the Shire of Morawa is required to prepare a report addressing the matters identified as significant by the Office of the Auditor General when auditing the Shire Annual Financial Report 2020-2021.

DETAIL

The Audit Committee held the Audit Close meeting for the 2020-2021 Financial Report on the 21 December 2021 where representatives from the OAG and the OAG contract auditors Nexia were in attendance online.

To maintain compliance with the Local Government Act the Shire is required to prepare a report addressing any significant matters raised by auditors. This report is to be sent to the minister within 3 months of the audit opinion being received. As such the attached report has been prepared addressing the significant matter raised by the OAG being the adverse trend in the Operating Surplus Ratio.

The report essentially suggests three action areas in response to the findings:

- 1. Undertake a review of the Shire's Long Term Financial Plan/Strategic Resource Plan including Asset Management Plans**

2. Review operational expenditure
3. Review operating income

Undertake a review of the Shire's Long Term Financial Plan/Strategic Resource Plan including Asset Management Plans

The Shire has already established that it needs a review of its long term financial planning and Moore Australia have been contracted to develop a revised long term financial plan taking into account asset management and other resource requirements. Moore will also look at compliance with ratios as part of long term planning.

By undertaking a long term financial plan review the Shire is able to see what impacts current spending, rates and asset deterioration is likely to have on the financial position of the Shire 10 years into the future. If the Shire is suffering from an adverse trend or declining financial position it is expected that this round of long term planning will identify modifications to alleviate this decline.

Review Operating Expenditure and Income

Whilst these are two separate action areas, they represent two sides of the same process.

Income from Fees and Charges is reviewed annually as part of the budget process, but whilst the Shire could consider implementing a significant increase it must consider the impact on the community when undertaking this course of action. Many of Shire's fees are legislated or have been set based on expenditure. Other areas are deemed to be a community service such as the swimming pool, so the charge does not cover costs.

The Shire as part of its normal annual budget deliberations will review its operational practices and to try and identify any efficiency gains. One of the major stumbling blocks with trying to reduce expenditure is the ever increasing costs to insurance and electricity which Council has no control over.

LEVEL OF SIGNIFICANCE

Medium – the non-completion of the attached report would represent non-compliance with the Act.

OFFICER'S RECOMMENDATION/ RESOLUTION

220318 Moved: Cr Stokes Seconded: Cr Katona

That Council:

- 1. Approve the display of public art created for 'Art on Wheels – Morawa Drug Aware Youth Week Event,' at the town entrances (as per maps).**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To consider and approve for the display location of public art created as a Youth Week project.

DETAIL

The Shire has applied for a Culture Drug Aware Youth Week Grant with Regional Arts WA, for \$4215.24. The project has been developed in collaboration with Morawa's Young Citizen of the Year, Chayce Denham, and the Community Development Officer. The grant supports young people as the project coordinators.

The project draws on the large interest in cars across the Morawa community to spread a drug and alcohol awareness message. The proposal is to acquire two old cars as a surface for creating a piece of public art with drug and alcohol aware messaging.

The project is due to take place from Monday 11 April to Wednesday 13 April. Youth Week is between Friday 8 – Monday 18 April. Showcasing the finished product during Youth Week ties this project completion together. To allow more residents and community to see it, permission is being sought to have the cars on display in a prominent public location for the school holiday period and into the future. See maps for proposed locations on Shire roads.

Drug Aware is the underlying message, and the engagement of the Morawa youth to spread this message is supported by the Morawa Police and the Speedway.

The Shire has sought a quote from Geraldton urban artist Shahrn Jackey (artist used for the work at the Morawa Skate Park) to facilitate the project, design, and completion. The intended artwork will be colourful, abstract and eye catching. The words and lettering will be cut from stencils so they will be neat (not graffiti styled font.)

Utilising cars as the canvas, draws on an existing youth interest group through the Morawa Burnout

Group. The process of preparing the car to paint, and the medium of art will target not just older young people who drive, but younger ones through art. There will be informal mentoring that will occur

through this project as well as spreading positive messaging. The cars also promote road safety by virtue of the canvas used.

Having these vehicles on the opposite side of the road to the painted satellite dishes will provide an eye-catching entrance to Morawa that may create a talking point for visitors.

LEVEL OF SIGNIFICANCE

Low significance – If the Council does not support the proposed location an alternative location can be used.

FINANCIAL AND RESOURCES IMPLICATIONS

The Shire is applying for a grant to cover 50% of the cost of this project and even if the grant is unsuccessful the Shire has existing Youth Services budget to cover the project. The overall project cost including in-kind contributions is likely to be around \$9,500.

RISK MANAGEMENT CONSIDERATIONS

A covid and risk management plan has been developed to cover this project as a youth holiday urban art project.

If Council isn't supportive of this project it may discourage youth driven projects in the future.

CONCLUSION

That Council approved the two locations for the public art youth week project.

That Council recommend the motion be brought to the National General Assembly that "This National General Assembly calls on:

1. All State and Territory Governments to fully implement Recommendations 11.1 and 11.2 of the Royal Commission into National Natural Disaster Arrangements and to provide further resources and assistance to Local Governments to increase their capacity and capability to effectively discharge the considerable emergency management responsibilities devolved to them.
2. The Australian Government to provide leadership and coordination to State and Territory Governments in responding to Recommendation 11.1 and Recommendation 11.2 of the Royal Commission into National Natural Disasters."

*CARRIED BY SIMPLE MAJORITY 6/0***PURPOSE**

For the Morawa Shire Council to move that an item be brought at the Australian Local Government Association (ALGA), National General Assembly in Canberra in June 2022.

Convened annually by the Australian Local Government Association (ALGA), the National General Assembly (NGA) of Local Government is the peak annual event for Local Government, attracting in excess of 800 Mayors and Councillors each year.

This event provides a unique opportunity for Local Government to engage directly with the Federal Government, to develop national policy, and to influence the future direction of our councils and our communities.

DETAIL

Cr Chappel will be attending this year's NGA and given the Shire's recent experience with Cyclone Seroja and the Disaster Recovery Arrangements process, it seems prudent for the Shire through Cr Chappel to raise

this motion on the national level.

In October 2020 a report (attached) from the Royal Commission into Natural Disaster Arrangements (the report) was released.

Recommendations 11.1 and 11.2 of the report state:

Recommendation 11.1: Responsibility for local government disaster management capability and capacity

State and territory governments should take responsibility for the capability and capacity of local governments to which they have delegated their responsibilities in preparing for, responding to, and recovering from natural disasters, to ensure local governments are able to effectively discharge the responsibilities devolved to them.

Recommendation 11.2 Resource sharing arrangements between local governments

State and territory governments should review their arrangements for sharing resources between their local governments during natural disasters, including whether those arrangements:

- 1) provide sufficient surge capacity, and
- 2) take into account all the risks that the state or territory may face during a natural disaster.

However, the responses by State and Territory Governments to these recommendations has been varied at best. In Western Australia, the State Government's response to 11.1 is 'support in principle' and that 'this occurs in practice in Western Australia'.

The WA State Governments' Emergency Management Capability Summary: State-wide overview of Local Governments 2019 concludes that overall metropolitan Local Governments have higher capability in all areas when compared with country Local Governments, and that capability tended to decrease with decreasing Local Government size and increasing remoteness.

Morawa and the Midwest experienced this firsthand with Cyclone Seroja, with all the smaller Local Governments struggling with capacity and capability to drive recovery.

While the Western Australian Government is active in assisting Local Governments to understand risk and capability, it does not support the delivery of risk treatment options to address capability gaps, or to increase Local Government capability. In response to Cyclone Seroja the State was required to instigate a State Recovery team however they are limited in terms of which areas they can respond to as the onus of recovery sits with Local Government even if they lack the general capacity.

Arrangements for resource sharing between Local Governments vary between jurisdictions. In Western Australia, significant barriers exist due to varying industrial relations arrangements between Councils and a lack of spare capacity in Local Government resourcing. A wholistic, coordinated and innovative approach is necessary to identify and / or develop surge capacity across Local Government. If this capacity was created, it must be able to be quickly deployed and funded under the Commonwealth-State funding arrangements to ensure an efficient response to disasters.

All Local Governments and their communities are facing the consequences of a changing climate – more frequent and extreme weather events, heatwaves, drought, floods, cyclones, and bushfires. Councils are on the frontline of dealing with the risks and impacts of disaster events and their employees are often directly impacted by the event as well as being charged with recovery responsibilities. . Their capacity and capability to prepare for, respond to and manage recovery following natural disasters is increasingly critical to the livelihood and wellbeing of all Australians.

Commonwealth level leadership and coordination of State and Territory Government responses to Recommendations 11.1 and 11.2 to will ensure that Local Governments are adequately and equitably

resourced across all jurisdictions to discharge their considerable emergency management responsibilities and support their local communities.

LEVEL OF SIGNIFICANCE

Medium – This is an opportunity for the Shire of Morawa to raise an issue of national importance that if employed previously would have benefitted the Shire.

RISK MANAGEMENT CONSIDERATIONS

CONCLUSION

The practice of State and Territory Governments delegating some of their responsibility for disaster preparedness, response and recovery to Local Governments is only effective if Local Governments are adequately resourced and have the capability to meet those responsibilities. State and Territory Government responses to Recommendations 11.1 and 11.2 have been variable. Commonwealth level leadership and coordination will ensure that Local Governments are adequately resourced across all jurisdictions.
