That with regards to Development Application and License Application for Extractive industry at Lot 1 Old Three Springs Road, Morawa, Council:

- 1. Note the Application as submitted together with the Report.**
- 2. Once the matters raised in the Report are addressed by the Applicant to the satisfaction of the Chief Executive Officer (CEO), authorise the CEO to issue a conditional Planning Permit and conditional Licence for Extractive Industry at Lot 1, Old Three Springs Road, Morawa subject to, but not limited to, the draft conditions as set out in *Attachment 2*.**

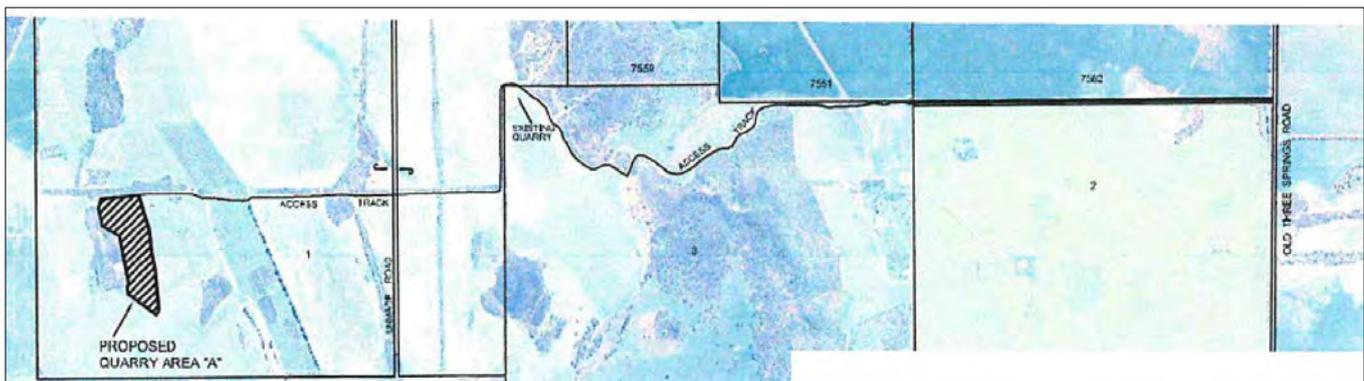

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To consider an Application for Development Approval and Extractive Industry License (*Attachment 1*) for a hard rock quarry for landscape supplies at Lot 1 Old Three Springs Road, Morawa, submitted by Weelaway Stone (Applicant).

DETAIL

Lot 1 Old Three Springs Road, Morawa is zoned Rural under the Shire of Morawa Town Planning Scheme No.2 (TPS No. 2). The proposed quarry area is 10.42ha. The property is situated approximately 14 kilometres west from the Morawa townsite.

Restricted Access Vehicle (RAV) road designation:	Old Three Springs Road, Morawa is conditional RAV 4 – (vehicle at ≤27.5m and maximum of 87.5t

For further details refer to *Attachment 1*. The Application has been referred to Council as there is no delegation of authority for the planning application or issuing of Extractive Industry Licenses.

LEVEL OF SIGNIFICANCE

Medium - Should Council resolve to refuse or conditionally approve the proposal, the Applicant has a right of review through the State Administrative Tribunal (SAT) which will incur legal costs.

CONSULTATION

Consultation in respect to the Application for Development Approval is not required however, the Applicant is obliged to publicly notify for the Extractive Industry License as per Clause 3.1(b) of the Extractive Industries Local Law 2018.

An advertisement was placed in the Midwest Times; insertion date 26 February 2020. Adjoining landowners have been notified of the application via email dated 12 February 2020.

The Shire has not received any submissions of objection or support.

LEGISLATION AND POLICY CONSIDERATIONS

The 'Rural' zone under the TPS No. 2 provides the mechanism for protecting and enhancing the environment of the district, controlling land and building development, setting aside land for future reserves and other matters authorised by the *Planning and Development Act 2005*. The proposed Extractive Industry is defined as 'Industry – Extractive' land use, which is a 'AA' use within the Rural zone. 'AA' use means that the use is not permitted unless the local government has exercised its discretion by granting planning approval.

TPS No. 2 has the following Objectives and provisions relevant to the application:

"4.1.1 Rural Zone

4.11.1 Objectives

- a) to ensure the continuation of broad-hectare farming as the principal landuse in the District and encouraging where appropriate the retention and expansion of agricultural activities;*
- b) to consider non-rural uses where they can be shown to be of benefit to the District and not detrimental to the natural resources or the environment;*
- c) to allow for facilities for tourists and travellers, and for recreation uses".*

Local Law

The *Shire of Morawa Extractive Industry Local Law 2018* applies to this application and establishes guidelines to assess applications for extractive industry and to issue extractive industry licenses.

Note: The Local Law can be found on the Shire's Website:

<https://www.morawa.wa.gov.au/documents/1325/extractive-industries-2018-local-law>

Council may, in respect of an application:

- a) Refuse the application; or
- b) Approve the application;
 - Over the whole or part of the land in respect of which the application is made; and
 - On such terms and conditions, if any, as it sees fit.

The proposed development does potentially have financial implications for the Council in terms of any bonds or road maintenance contributions Council may seek to impose. Under the Local law, provides the opportunity to include numerous and significant conditions:

".....the local government may impose conditions in respect of the following matters, including but not limited to –

- a) the orientation of the excavation to reduce visibility from other land;*
- b) the appropriate siting of access thoroughfares, buildings and plant;*
- c) the stockpiling of material;*
- d) the hours during which any excavation work may be carried out;*
- e) the hours during which any processing plant associated with, or located on, the site may be operated;*

- f) *requiring all crushing and treatment plant to be enclosed within suitable buildings to minimise the emission of noise, dust, vapour and general nuisance to the satisfaction of the local government;*
- g) *the depths below which a person shall not excavate;*
- h) *distances from adjoining land or roads within which a person must not excavate;*
- i) *the safety of persons employed at or visiting the excavation site;*
- j) *the control of dust and wind-blown material;*
- k) *the planting, care and maintenance of trees, shrubs and other landscaping features during the time in which the extractive industry is carried out in order to effectively screen the area to be excavated and to provide for progressive rehabilitation;*
- l) *the prevention of the spread of dieback or other disease;*
- m) *the drainage of the excavation site and the disposal of water;*
- n) *the restoration and reinstatement of the excavation site, the staging of such works, and the minimising of the destruction of vegetation;*
- o) *the provision of retaining walls to prevent subsidence of any portion of the excavation or of land abutting the excavation;*
- p) *requiring the licensee to furnish to the local government a surveyor's certificate each year, prior to the renewal fee being payable, to certify the quantity of material extracted and that material has not been excavated below the final contour levels outlined within the approved excavation program;*
- q) *requiring the licensee to enter into an agreement with the local government to pay a contribution in respect of thoroughfares in the district used by heavy or extraordinary traffic conducted by or on behalf of the licensee under the licence, in accordance with subclauses 4.5(2) and (3) –*
 - i. *any extraordinary expenses incurred by the local government;*
 - ii. *requirement for increased maintenance; and*
 - iii. *repair of damage caused;*
- r) *requiring the licensee to enter into an agreement with the local government in respect of any condition or conditions imposed under this local law; and*
- s) *any other matter for properly regulating the carrying on of an extractive industry.”*

The *Local Law* allows Council to require a road maintenance contribution and bonds. As this is a new application for both planning approval and the extractive industry license it may be appropriate that a bond for road maintenance (only) be taken for a distance of 100 metres on the local government road from the quarry entry to the road. The bond would be established in consultation with the Applicant after an on-site meeting.

A bond or road maintenance contribution for the whole of the road is not recommended as the proposed vehicle usage for the quarry is limited to that of a (conditional) RAV 4 (MRWA) road. It is also considered that it would be difficult for the Shire to differentiate between road maintenance due to the quarry and standard road usage. A rehabilitation bond that covers the whole quarry area is not recommended due to the Shire potentially being responsible to carry out such works. However, the Applicant is required to provide a rehabilitation plan which is enforceable under any planning approval.

State Planning Strategy 2050

A strategic approach to planning for the State's resources economy requires that accessible and affordable supplies of basic raw materials are available close to demand.

All industrial, commercial and residential development requires basic raw materials. Beyond

construction basic raw materials also have a significant role in mineral processing and refining and in agriculture and are subject to conflicting supply and access demands.

The resultant transport requirements increase direct and other costs, including an increased carbon footprint, congestion and road safety. To maintain current living standards, sand, limestone, rock aggregate and clay need to be affordable.

State Planning Policy 2.4 – Basic Raw Materials

There will be a general presumption against the intrusion of proposed new uses which are not compatible with extractive industry operations. Non-compatible uses should be excluded from key extraction areas to ensure that the areas are available for the long-term supply of basic raw materials.

The policy is designed to facilitate the extraction of basic raw materials close to the major markets in the metropolitan region, and to avoid sensitive development close to basic raw material resources which could otherwise inhibit extraction of the resource.

The policy also recognises the importance of ensuring the extraction of basic raw materials occurs with minimum detriment to the local amenity and environment, including regionally significant vegetation, and in a manner, which allows for future use and development consistent with long-term planning intentions for the area.

State Planning Policy 2.5 – Rural Planning

Significant geological supplies and their buffers are not to be developed for other purposes until the resource is extracted, or unless development is compatible with the future extraction of the resource.

Where a basic raw material resource is located with native vegetation or significant biodiversity values, extraction of the resource may require referral under Part IV or Part V of the *Environmental Protection Act 1986*. Environmental regulation of the proposal may require vegetation retention and/or protection of other environmental assets. Planning decision-makers are to have due regard to advice from environmental agencies and consider potential impacts on fragmentation and connectivity of remnant vegetation.

FINANCIAL AND RESOURCES IMPLICATIONS

Shire of Morawa 2019/20 Fees and Charges:

- Planning Application Fee: \$ 739.00
- Initial License Application Fee: \$1,600.00
- Renewable Annual Fee: \$1,600.00 (paid annually from 2021)

Any bonds will be held in trust and will be refunded to the Applicant as outlined in the conditions of the Planning Approval and the Extractive Industry License.

RISK MANAGEMENT CONSIDERATIONS

Nil

CONCLUSION

Subject to the Applicant addressing the outstanding matters raised in this Report, it is concluded appropriate that Council authorise the Acting CEO to grant development approval under TPS No. 2 and an Extractive Industry Licence under the *Local Law 2018* to Weelaway Stone for an extractive industry at Lot 1, Old Three Springs Road, Morawa (with the CEO addressing the draft conditions in *Attachment 2*).

OFFICER'S RECOMMENDATION/RESOLUTION

200306 Moved: Cr Carslake Seconded: Cr Stokes

That with regards to Development Application and License Application for Extractive industry at Lot 1183 Morawa-Yalgoo Road, Morawa, Council:

- 1. Note the Application as submitted along with the Report to Council.**
- 2. Once the matters raised in the Report are addressed by the Applicant to the satisfaction of the Chief Executive Officer (CEO), Council authorise the CEO to issue a conditional Planning Permit and conditional Licence for Extractive Industry at Lot 1183 Morawa-Yalgoo Road, Morawa subject to, but not limited to, the draft conditions as set out in *Attachment 2*.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

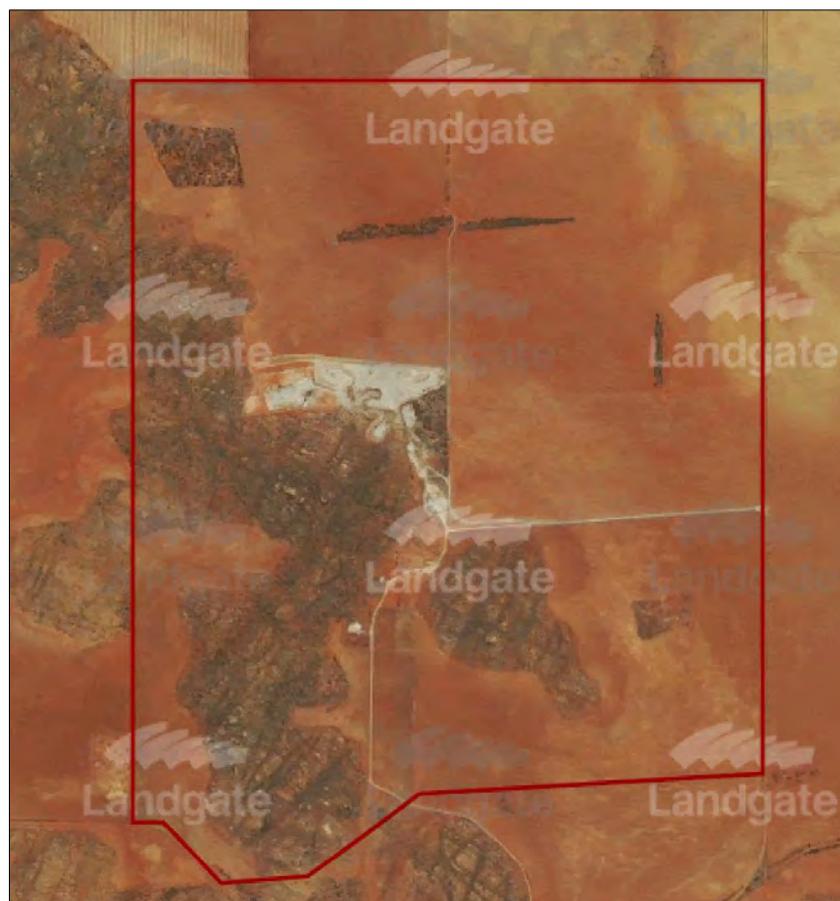

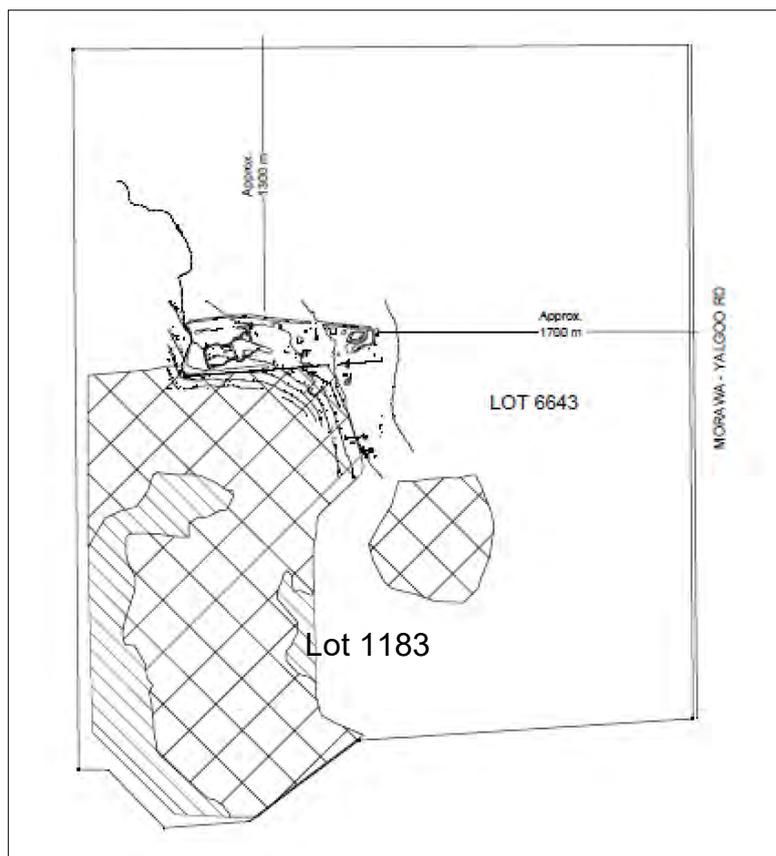

To consider an application for Development Approval and an Extractive Industry License for a hard rock quarry at Lot 1183 Morawa-Yalgoo Road, Morawa, submitted by Dominic and Linda Tropiano (Applicant).

DETAIL

Lot 1183 Morawa-Yalgoo Road, Morawa is a 1115 hectare (approximately) property zoned Rural under the Shire of Morawa Local Planning Scheme No. 2 (TPS No. 2). The property is situated approximately 15 kilometres from the Morawa townsite.

As background, in 2014 the Shire issued an Extractive Industries Licence over Lot 1183 to Midwest Quarries Pty Ltd where significant extraction of granites and greenstones took place. In 2019, investigations conducted by the Shire confirmed that extractive works at this site had in fact ceased to continue for more than twelve (12) months.

This placed Midwest Quarries Pty Ltd in breach of its licencing requirements as per Section 4.9(1)(a) of the *Shire of Morawa's Extractive Industries (2018) Local Law*. In this regard, Council resolved to cancel the Extractive Industry Licence.

Source of Aerial photo – Landgate

The Applicant has advised that the application for Extractive Industry is as follows:

- “i Quarry granites and greenstones for the recovery of aggregates tailored to meet marketable demand;*
- li Five years (5), campaigned at approximately two hundred thousand (200,000) tonnes per annum”.*

The Applicant proposes the following processing works:

ELEMENT	DESCRIPTION
Site Location	Lot 1183 Morawa-Yalgoo Road, Morawa
Zoning (Local Planning Scheme)	Rural
Resource extraction (tonnes)	1 million tonnes over 5 years
Operating Hours:	6am to 6pm.
Plant Life:	5 years.
Dewatering requirements:	Not specifically addressed – potentially subject to Department of Water Environment Regulation (DWER).
Native Vegetation Disturbance:	None anticipated.
Staging and Timing:	200,000 tones per annum.
Truck Movements - Normal Operations:	Not specifically addressed – but direct access to 1183 Morawa-Yalgoo Road.
Truck Movements - Peak Operations:	Not specifically addressed – but direct access to 1183 Morawa-Yalgoo Road.
Haulage Route:	Not specifically addressed – but direct access to 1183 Morawa-Yalgoo Road.
Rehabilitation:	Whist rehabilitation is acknowledged, a rehabilitation plan has not been provided. CI3.2 (2) (c) of the Local Law requires details to be provided with the application.
Current public liability insurance policy in which the interests and indemnifying the Shire for not less than \$20,000,000:	To be provided.
Restricted Access Vehicle (RAV) road designation:	Morawa-Yalgoo Road, Morawa is conditional RAV 7 – (vehicle at >27.5, 36.5 and maximum of 107.5t

For further details please refer to *Attachment 1*. The Application has been referred to Council as there is no delegation of authority for the Planning Application or issuing of Extractive Industry Licenses. The proposal has been assessed against relevant objectives and development provisions of TPS No. 2 and generally complies.

Truck numbers

It is anticipated that the extractive industry would generate significant truck movements. The number of trucks per hour that represents peak operations will need to be provided by the eventual operator. A significant concern regarding the trucks is the impact on the community – particularly on children and school busses. Regarding school bus routes, buses do travel on Morawa-Yalgoo Road. There is a challenge here however, as the PTA can add and remove bus stops as it sees fit due to student demand.

The Morawa-Yalgoo Road has a MRWA RAV rating of conditional RAV 7 and permits contain the following MRWA conditions:

- No operation during school bus hours;
- Operators are to contact the local schools to obtain school bus hours;
- Maximum speed 80 km/h; and
- All operators must carry current written approval from the road asset owner permitting use of the road.

LEVEL OF SIGNIFICANCE

Medium - Should Council resolve to refuse or conditionally approve the proposal the Applicant has a right of review through the State Administrative Tribunal (SAT) which will incur legal costs. However, a SAT review is unlikely due to numerous issues associated with the formal application still to be provided by the Applicant.

CONSULTATION

Consultation in respect to the Application for Development Approval is not required however, the Applicant is obliged to publicly notify for the Extractive Industry License as per Clause 3.1(b) of the *Extractive Industries Local Law 2018*.

An advertisement was placed in the west Australian insertion date 2 November 2019. Adjoining landowners were notified of the application on 29 October 2019.

The Shire has not received any submissions of objection or support.

LEGISLATION AND POLICY CONSIDERATIONS

The 'Rural' zone TPS No. 2 provides the mechanism for protecting and enhancing the environment of the district, controlling land and building development, setting aside land for future reserves and other matters authorised by the *Planning and Development Act 2005*.

The proposed Extractive Industry is defined as 'Industry – Extractive' land use, which is a 'AA' use within the Rural zone. 'AA' use means that the use is not permitted unless the local government has exercised its discretion by granting planning approval.

TPS No. 2 has the following Objectives and provisions relevant to the application:

"4.1.1 Rural Zone

4.11.1 Objectives

- a) to ensure the continuation of broad-hectare farming as the principal landuse in the District and encouraging where appropriate the retention and expansion of agricultural activities;*
- b) to consider non-rural uses where they can be shown to be of benefit to the District and not detrimental to the natural resources or the environment;*
- c) to allow for facilities for tourists and travellers, and for recreation uses".*

Local Law

The *Shire of Morawa Extractive Industry Local Law 2018* applies to this application and establishes guidelines to assess applications for extractive industry and to issue extractive industry licenses.

Note: the Local Law can be found on the Shire's Website:

<https://www.morawa.wa.gov.au/documents/1325/extractive-industries-2018-local-law>

Council may, in respect of an application:

- c) Refuse the application; or
- d) Approve the application;
 - Over the whole or part of the land in respect of which the application is made; and
 - On such terms and conditions, if any, as it sees fit.

Under the Local law, provides the opportunity to include numerous and significant conditions:

"....the local government may impose conditions in respect of the following matters, including but not limited to –

- a) the orientation of the excavation to reduce visibility from other land;*
- b) the appropriate siting of access thoroughfares, buildings and plant;*
- c) the stockpiling of material;*
- d) the hours during which any excavation work may be carried out;*
- e) the hours during which any processing plant associated with, or located on, the site may be operated;*
- f) requiring all crushing and treatment plant to be enclosed within suitable buildings to minimise the emission of noise, dust, vapour and general nuisance to the satisfaction of the local government;*
- g) the depths below which a person shall not excavate;*
- h) distances from adjoining land or roads within which a person must not excavate;*
- i) the safety of persons employed at or visiting the excavation site;*
- j) the control of dust and wind-blown material;*
- k) the planting, care and maintenance of trees, shrubs and other landscaping features during the time in which the extractive industry is carried out in order to effectively screen the area to be excavated and to provide for progressive rehabilitation;*
- l) the prevention of the spread of dieback or other disease;*
- m) the drainage of the excavation site and the disposal of water;*
- n) the restoration and reinstatement of the excavation site, the staging of such works, and the minimising of the destruction of vegetation;*
- o) the provision of retaining walls to prevent subsidence of any portion of the excavation or of land abutting the excavation;*
- p) requiring the licensee to furnish to the local government a surveyor's certificate each year, prior to the renewal fee being payable, to certify the quantity of material extracted and that material has not been excavated below the final contour levels outlined within the approved excavation program;*
- q) requiring the licensee to enter into an agreement with the local government to pay a contribution in respect of thoroughfares in the district used by heavy or extraordinary traffic conducted by or on behalf of the licensee under the licence, in accordance with subclauses 4.5(2) and (3) –*

- i. any extraordinary expenses incurred by the local government;
 - ii. requirement for increased maintenance; and
 - iii. repair of damage caused;
- r) requiring the licensee to enter into an agreement with the local government in respect of any condition or conditions imposed under this local law; and
- s) any other matter for properly regulating the carrying on of an extractive industry.”

Local Law application requirements

Cl3.2 of the Local Law specifies certain information must accompany an Application for licence. The following addresses the requirements that have not been in the Application:

Local Law required information	Provided with Application?
The set fee	No – Invoice sent
A current certificate of currency for public liability policy (naming the Shire and indemnifying the licensee and the Shire for a sum of not less than \$20,000,000)	Certificate of Currency provided (but not reflecting the conditions of the Local Law)
A copy of the planning approval for an extractive industry to be conducted on the land	No – subject of this report to Council
a plan of the excavation showing the existing and proposed land contours based on the Australian Height Datum and plotted at one metre contour intervals	No – not shown at one metre intervals (two metre intervals shown)
a rehabilitation and decommissioning program	No
evidence that a datum peg has been established on the land related to a point approved by the local government on the surface of a constructed public thoroughfare or such other land in the vicinity	Yes
a certificate from a licensed surveyor	No
environmental approval required under any environmental legislation	No – discussed below
evidence that an application for a clearing permit has been lodged with the Department of Water and Environmental Regulation if that is required under section 51C(a) of the <i>Environmental Protection Act 1986</i>	No – it seems unlikely that approval would be required. The landowner has a Department of Agriculture ‘Agreement to Reserve’ which appears to exclude the area of extraction

The *Local Law* allows Council to require a road maintenance contribution and bonds. As this is a new application for both planning approval and the extractive industry license it may be appropriate that a bond for road maintenance (only) be taken for a distance of 100 metres on the local government road from the quarry entry to the road.

The bond would be established in consultation with the Applicant after an on-site meeting.

A bond or road maintenance contribution for the whole of the road is not recommended as the proposed vehicle usage for the quarry is limited to a (conditional) RAV 7 (MRWA) road. It is also considered that it would be difficult for the Shire to differentiate between road maintenance due to the quarry and standard road usage. A rehabilitation bond that cover the whole quarry area is not recommended due to the Shire potentially being responsible to carry out such works.

However, the Applicant is required to provide a rehabilitation plan which is enforceable under any planning approval.

State Planning Strategy 2050

A strategic approach to planning for the State's resources economy requires that accessible and affordable supplies of basic raw materials are available close to demand.

All industrial, commercial and residential development requires basic raw materials. Beyond construction basic raw materials also have a significant role in mineral processing and refining and in agriculture and are subject to conflicting supply and access demands. The resultant transport requirements increase direct and other costs, including an increased carbon footprint, congestion and road safety. To maintain current living standards, sand, limestone, rock aggregate and clay need to be affordable.

State Planning Policy 2.4 – Basic Raw Materials

There will be a general presumption against the intrusion of proposed new uses which are not compatible with extractive industry operations. Non-compatible uses should be excluded from key extraction areas to ensure that the areas are available for the long-term supply of basic raw materials.

The policy is designed to facilitate the extraction of basic raw materials close to the major markets in the metropolitan region, and to avoid sensitive development close to basic raw material resources which could otherwise inhibit extraction of the resource.

The policy also recognises the importance of ensuring the extraction of basic raw materials occurs with minimum detriment to the local amenity and environment, including regionally significant vegetation, and in a manner, which allows for future use and development consistent with long-term planning intentions for the area.

State Planning Policy 2.5 – Rural Planning

Significant geological supplies and their buffers are not to be developed for other purposes until the resource is extracted, or unless development is compatible with the future extraction of the resource.

Where a basic raw material resource is located with native vegetation or significant biodiversity values, extraction of the resource may require referral under Part IV or Part V of the *Environmental Protection Act 1986*. Environmental regulation of the proposal may require vegetation retention and/or protection of other environmental assets.

Planning decision-makers are to have due regard to advice from environmental agencies and consider potential impacts on fragmentation and connectivity of remnant vegetation.

Environmental Protection Regulations 1987 (Regulations)

The *Regulations* define 'Prescribed Premises' and the potential need for 'Works Approval. Should a 'Works Approval' be required, a local government cannot issue any approval. In this regard, the *Regulations* included the following categories as 'Prescribed Premises':

- 6 *Mine dewatering:* premises on which water is 50 000 tonnes or more per extracted and discharged into year the environment to allow mining of ore.
- 12 *Screening etc. of material:* premises (other than premises 50 000 tonnes or more per within category 5 or 8) on year which material extracted from the ground is screened, washed, crushed, ground, milled, sized or separated

From the information provided, it is not clear whether the proposal requires DWER approval, however, it is the responsibility of the proponent to seek that advice and if required, approval.

The DWER is also responsible to assessing and approving clearing permits. An approved clearing permit may need to be obtained prior to any clearing occurring on site. Importantly, the Local Law stipulates that a License Application must include any DWER approval for clearing (no information has been submitted with the application).

FINANCIAL AND RESOURCES IMPLICATIONS

Under Council's 2019/20 adopted 'Fees and Charges, the following fees apply:

- Planning Application Fee: \$739.00
- Initial License Application Fee: \$1,600.00
- Renewable Annual Fee: \$1,600.00 (paid annually from 2021)

The proposed development does potentially have financial implications for the Council in terms of any bonds or road maintenance contributions Council may seek to impose. Any bonds will be held in trust and will be refunded to the Applicant as outlined in the conditions of the Planning Approval and the Extractive Industry License.

RISK MANAGEMENT CONSIDERATIONS

CONCLUSION

The Applications submitted are limited on detail due to there not currently being an agreed operator. Much of the necessary planning and local law information will be provided once an operator is established. Whilst the concept of the proposed Extractive Industry is supported in principle, Council is not able to approve either the Development Application or the Extractive License Application until the matters referred to above are addressed by the Applicant.

In this regard, it is recommended that Council note the Applications and authorise the CEO to issue approvals once the information is provided and to include recommended conditions as per those included in *Attachment 2*.

That in regard to WAPC Subdivision No.158966, Council resolves:

- 1. Not to object to subdivision application Western Australian Planning Commission (WAPC) No. 158966 from Hille Thompson & Delfos on behalf of Karara Mining Ltd and Sinosteel Midwest Corporation Ltd for Lot No's 217, 516, 517, 518, 519, 520, 521, 522, 523, 5997, 7734, 8876, 9485 Koolanooka Springs Road and Fallon Road, Koolanooka and does not seek to impose any conditions.**
- 2. To suggest to the WAPC that it not apply a Bushfire Attack Level Assessment to Subdivision No. 158966 in this instance as the subdivision does not create any additional lots and a Bushfire Attack Level Assessment will still be applicable in any future approvals for dwellings etc.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

Council is requested to provide comment of support to the Western Australian Planning Commission (WAPC) in respect of the subdivision Lot No's 217, 516, 517, 518, 519, 520, 521, 522, 523, 5997, 7734, 8876, 9485 Koolanooka Springs Road and Fallon Road, Koolanooka.

DETAIL

The Shire of Morawa received a similar application from the WAPC in 2015 (Application No: 152205) for the same parcels of land. However, the subdivision application expired prior to the applicant clearing the relevant condition. Therefore, a new subdivision request has been received from the WAPC (Application No: 158966) (*Attachment 1*).

The WAPC Subdivision Application No.58966 seeks a boundary realignment of the land (classified as 'subdivision') for land ownership adjustment between Karara Mining Ltd and Sinosteel Midwest Corporation Ltd. The proposed subdivision will reduce the number of lots from the current 13 to 7 freehold lots.

LEGISLATION AND POLICY CONSIDERATIONS

- The land is zoned 'Rural' zone under the Shire of Morawa Town Planning Scheme No.2 (TPS No. 2). TPS No. 2 has the following Objectives and provisions relevant to the application:

*"4.1.1 Rural Zone**4.11.1 Objectives*

- a) to ensure the continuation of broad-hectare farming as the principal landuse in the District and encouraging where appropriate the retention and expansion of agricultural activities;*
- b) to consider non-rural uses where they can be shown to be of benefit to the District and not detrimental to the natural resources or the environment;*
- c) to allow for facilities for tourists and travellers, and for recreation uses.*

*4.11.2 Site Requirements See Table 2.**4.11.3 Development Requirements: Except for:*

- a) establishment of a firebreak required to comply with a regulation or bylaw, or*
- b) provision of access to a building site, or*
- c) the area of building, or*
- d) cash crops; not more than 2000m² on any lot shall be cleared of indigenous trees or substantial vegetation. If the Council is satisfied upon receipt of a submission the clearing of an area greater than 2000m² will not adversely affect the amenity, environmental values, character and landscape qualities of the locality it may approve such land to be cleared subject to conditions as may be required by the Council.*

4.11.4 Subdivision: Having regard to the prime agricultural importance of land in the zone the Council will only support further subdivision of existing lots where:

- a) the lots have already been physically divided by significant natural or man-made features which preclude the continued operation of a farming property as a single unit (unless adjoining land could be similarly subdivided and thereby, by the process of precedent, lead to an undesirable pattern of landuse in the area or in lots too small for uses compatible with the prevailing use in the area or in ribbon development alongside roads);*
- b) the lots are for farm adjustment;*
- c) the lots are for specific uses such as recreation facilities and public utilities; or d) the lots are required for the establishment of uses ancillary to the rural use of the land or are required for the travelling public and tourists (such as service stations and motels).*

4.11.5 Homestead lots: Notwithstanding clause 4.11.4 above, the council may support a subdivision application to excise a homestead lot, containing an existing farm residence, within the Rural Zone, subject to:

- (i) there having been a decline in population over two intercensal periods in the Census Collection District within which the subject land is located;*
- (ii) any such homestead lot being between 4 ha and 10 ha in size, excluding any battle-axe leg; and*

(iii) any such homestead lot having its own frontage, and constructed vehicular access, to a constructed road.”

- Council Policy ‘9.1 RURAL SUBDIVISION’ is applicable to the application. The Policy reflects TPS No. 2 objectives along with the following criteria:

Council will not support the subdivision of rural land resulting in the creation of lots smaller than 20 hectares”

The proposed subdivision is in accordance with TPS No. 2 and Council Policy.

- (4) *Within 30 days after a council has made a determination, a copy of the review and determination is to be provided to the Department.”*

FINANCIAL AND RESOURCES IMPLICATIONS

The Shire of Morawa 2019/20 Budget Review outcome is that the Shire is expected to have a surplus of \$11,339 as at 30 June 2020.

RISK MANAGEMENT CONSIDERATIONS

High – Compliance with legislation and accountability via external audits (OAG)

CONCLUSION

The review has considered all operational and capital areas of the Shire and compared year to date figures to projected 30 June figures to ensure accounts are tracking in line with budget. Where changes and variations are known these changes have been incorporated to ensure that the desired financial result is achieved by the Shire.

The net effect of the projected income and expenditure to 30 June 2020 is that the Shire is expected to have a projected surplus of \$11,339.

That with respect to Member Nomination – Mid-West/Wheatbelt Joint Development Assessment Panel Council:

- 1. Appoints the following Councillors as local members on the Mid-West/Wheatbelt Joint Development Assessment Panel (DAP), for the DAP term expiring on 19 March 2023:**
 - (a) Councillor Chappel; and**
 - (b) Councillor Coaker.**
- 2. Appoints the following Councillors as alternate (deputy) members on the Mid-West/Wheatbelt Joint Development Assessment Panel (DAP), in the event that a local member is unavailable for a meeting, for the DAP term expiring on 19 March 2023:**
 - (a) Councillor Stokes; and**
 - (b) Councillor Collins.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

This report seeks Council’s confirmation of two (2) appointed members and two (2) alternate/proxy members for the Mid-West/Wheatbelt Joint Development Assessment Panel (DAP) over the next three (3) years.

DETAIL

Under the *Planning and Development (Development Assessment Panels) Regulations, 2011* (DAP Regulations) there are three categories of application, listed as follows:

1. Mandatory DAP Applications - these are Development Applications which must be determined by a DAP and cannot be determined by a Local Government or the Western Australian Planning Commission (WAPC).
2. Mandatory applications for the Mid-West/Wheatbelt region must meet a threshold value of \$7 million.

3. “Opt-in” DAP applications – these are Development Applications where the applicant may choose to have the application determined by a DAP, or by the Local Government under the normal process. In order to be considered an “opt-in” application, the application must fit within the threshold of \$3–7 million. Additionally, the DAP regulations allow Local Governments to delegate their powers to determine applications within the “opt-in” value range to their DAP. Where a Local Government has made a delegation to this effect, any applications within the “opt-in” value range will be processed as if they were mandatory DAP applications.
4. Excluded applications - under DAP regulations, Development Applications relating to the following classes of development are "excluded Development Applications" for the purpose of the DAP. These applications are therefore not determined by the DAP:
 - Construction of a single house;
 - Construction of less than 10 grouped dwellings or multiple dwellings;
 - Construction of carports, shade sails, outbuildings or sheds, etc;
 - Classes of development with a designated value of less than \$3m;
 - Development in an improvement scheme area;
 - Development by a Local Government or the WAPC. All DAP applications are still to be lodged and assessed by Shire Planning staff.

DAP Member Obligations

- DAP members will be expected to prepare for, attend and participate in every DAP meeting held in relation to Shire DAP applications.

DAP Protocols

- A quorum for a DAP is currently the presiding member and any two DAP members that are in attendance (irrespective of whether they are a specialist member or a local government member).
- Each DAP member has one vote. In the event of a deadlocked vote, the Presiding Member has the deciding vote.
- In the event that a permanent local government DAP member cannot attend a meeting, that member would be replaced by an alternate local government member.
- Alternate specialist members cannot replace local government DAP members and vice versa.
- All DAP meetings are also required to be open to the public.
- All DAP members are required to abide by specified rules of conduct. These requirements are in addition to the requirements regarding conflict of interest and use of information that are set out in the Planning and Development Act 2005 and Local Government Act 1995. The Minister for Planning can remove a DAP member for breaching the code of conduct.

In accordance with the *Planning and Development Act 2005* and DAP Regulations, the following Councillors were nominated by Council in 2017 and were appointed as Mid-West/Wheatbelt DAP members by the Minister for Planning over the next three (3) years:

- Members
 1. Councillor Chappel

LEGISLATION AND POLICY CONSIDERATIONS

DAPs have been formed under Part 11A of the *Planning and Development Act 2005* with their functions prescribed and regulated under the *Planning and Development (Development Assessment Panels) Regulations 2011*. In this regard the Council is required by these Regulations to nominate four (4) Elected Members for consideration of appointment by the Minister for Planning to the Mid-West DAP.

FINANCIAL AND RESOURCES IMPLICATIONS

There are no known financial or resource implications for this matter. Local DAP members are entitled to be paid for their attendance at DAP training and at DAP meetings, unless they fall within a class of persons excluded from payment.

RISK MANAGEMENT CONSIDERATIONS

There are no known perceived risks associated with the report.

CONCLUSION

As outlined above, Council is responsible for nominating four (4) Local Government representatives to sit on the Mid-West/Wheatbelt DAP.

11.3.1 Arrangements to Support the Morawa Visitors Centre

Author: Economic Development Manager

Authorising Officer: Acting Chief Executive Officer

Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION/RESOLUTION

200312 Moved: Cr Collins Seconded: Cr Coaker

That with regards to arrangements to support the Morawa Visitors Centre, Council resolve to:

1. Note the Morawa Visitor Centre is yet to hold its Annual General Meeting (AGM);
2. Note the informal advice from the chair of the Morawa Visitors Centre that the centre seeks to continue to operate under their current committee structure; and
3. Continue its in-kind and/or financial support to the centre based on point 2 above.

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To provide Council with an update as to arrangements to support the Morawa Visitors Centre (MVC).

DETAIL

The MVC provides a vital service to the broader Morawa community and tourists through volunteering their time and sharing their extensive local knowledge through the tourist centre during the wildflower season. In a recent meeting with senior Shire staff, MVC members have reiterated their key challenges that include but not limited to:

- Less volunteers available;
- Difficulty filling weekly volunteer roster; and
- Ordering and managing stock etc

These matters were presented to the 19 December 2019 Ordinary Council Meeting where although no Council resolution was determined, potential options for supporting the MVC were discussed in detail.

The Shire understands that Council would be prepared to consider supporting a paid employee to undertake the administrative and managerial processes at the MVC.

Three likely options to achieving this outcome are:

1. MVC committee hire an employee and as such take on the employee obligations Superannuation; or
2. The Shire hire an employee (taking on employee obligations) and provide the employee to the MVC committee for administrative purposes; or
3. the MVC committee 'dissolve' with the Shire responsible for operating the MVC and responsible employee costs.

The MVC committee is still to hold its Annual General Meeting (AGM). The Shire was verbally advised that an informal meeting with committee members was held on 27 February 2020 where the committee sought to continue, drawing on new members taking on key committee positions. This means that the MVC operations is very likely to continue under a new committee without the need for Shire assistance. The Shire staff were further informed that committee positions will be formalised at an upcoming AGM, anticipated to be held in the coming weeks.

Whilst the Shire appreciates the huge effort that the volunteers commit to running the MVC each season, the Shire equally knows that the number of regular volunteers is dwindling. At this stage and until the AGM is held and the committee is formalised, the Shire should provide the opportunity for the committee to establish and operate for the forthcoming tourist season. Should the administrative assistance be required for the MVC, Council can consider such arrangements in the 2020/21 Budget.

LEVEL OF SIGNIFICANCE

Medium – it is important that Morawa has an operational visitor centre to support tourists.

LEGISLATION AND POLICY CONSIDERATIONS

FINANCIAL AND RESOURCES IMPLICATIONS

In addition to building and building maintenance, the 2019/20 Budget has an allocation of \$20,000 to support the MVC operations.

RISK MANAGEMENT CONSIDERATIONS

Should the volunteer committee not be available to operate the MVC the Shire would need to commit significant funds to achieve a similar level of tourist information and service.

CONCLUSION

Provided the current committee continues to operate the MVC under its structure, Council's in-kind and/or financial support should continue. However, if this not be the case and the committee not continue, a further report to Council addressing MVC operations and costings will be required. The Shire will continue its close association with the MVC members to assist and encourage.

11.3.2 Yamatji Nation Southern Regional Agreement

Author: Economic Development Manager

Authorising Officer: Acting Chief Executive Officer

Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION/RESOLUTION

200313 Moved: Cr Stokes Seconded: Cr Carslake

That with regards to the Yamatji Nation Southern Regional Agreement (YNSRA), Council resolves:

- 1. To acknowledge this historic agreement; and**
- 2. To request the President to write to the YNSRA representative congratulating them on the outcome and to express a desire for the Shire to partner with YNSRA representatives to achieve wider benefits to the broader community.**

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

To provide Council with an overview of the Yamatji Nation Southern Regional Agreement (YNSRA) signed on 7 February 2020.

DETAIL

The YNSRA was formerly known as the Geraldton Alternative Settlement Agreement and was renamed YNSRA in July of 2018. According to Yamatji Marlpa Aboriginal Corporation four (4) native title claim groups involved in the agreement negotiations are collectively known as the Separate Proceeding Area (SPA) claims. These four (4) SPA claims are guided by a 12-person Traditional Owners Negotiation Team that consists of Mullewa Wadjari representatives, Hutt River representatives, Widi Mob representatives and Southern Yamatji representatives (refer to *Figure 1*).

The signing of the Agreement saw both the Hon Ken Wyatt AM MP, (Federal) Minister for Indigenous Australians and the Hon Ben Wyatt MLA LLB, MSc (WA State) Treasurer; Minister for Finance; Aboriginal Affairs; Lands attend the official determination by the Federal Court over the Yamatji Nations claim as well as the delivery of the Indigenous Land Use Agreement (ILUA).

The ILUA will inject close to half a billion dollars into the Yamatji nations community across the Midwest over several years. The package itself is valued at \$442 million plus 100,000ha of land.

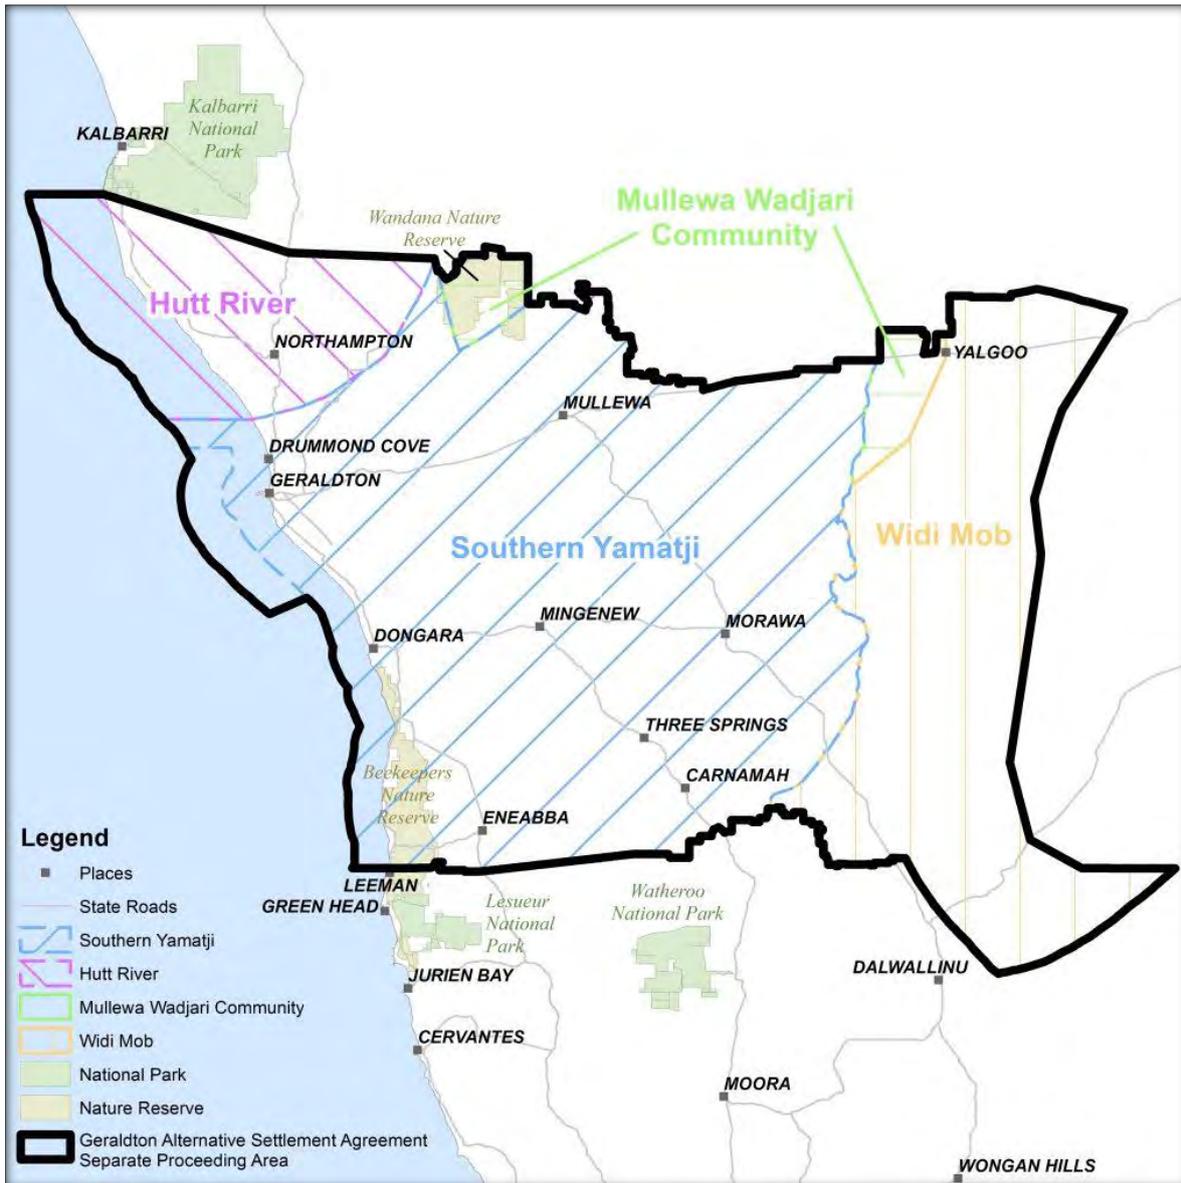

Figure 1: Map outlining YNSRA

A joint media statement from the Hon Ken Wyatt and Hon Christian Porter (Federal) Attorney-General and Minister for Industrial Relations released on 7 February 2020, stated:

“The Yamatji Nation is the latest group of traditional owners to receive legal recognition of their native title rights and interests. Minister for Indigenous Australians, the Hon Ken Wyatt AM, MP, said today’s native title determination by the Federal Court over the Yamatji people’s land underpins opportunities for economic development and cultural self-determination.”

“Land security is economic security, and today’s decision will deliver certainty and new opportunities for the Yamatji Nation,” Minister Wyatt said.

“This native title determination will mean generations of Yamatji people can benefit from the land and help maintain their cultural connection with that land.”

“I extend my thanks to the Federal Court of Australia for their consideration and congratulate the lead applicants and all of the Yamatji people on this positive result that provides certainty for all parties involved,” Attorney-General, Christian Porter, said.

This determination is part of the Yamatji Nation Southern Regional Agreement, whose negotiation has been led by Western Australia, which resolves native title claims over 48,000 square kilometres covering the Yamatji Nation, Southern Yamatji, Hutt River, Mullew Wadjari and Widi Mob groups.

“This Agreement could serve as a model for other jurisdictions,” Minister Wyatt said. “As well as land, the Agreement includes funding to support commercial and industrial development, tourism and business programs and social housing.

“The Morrison Government has committed to support the establishment and initial operation of the corporations that will manage the traditional owner’s interests under the Agreement.

“Through exercising native title rights and the benefits from this Agreement, we will see new businesses, more employment opportunities, greater development and prosperity flow throughout the Geraldton region,” Minister Wyatt said.”

It is understood that the YNSRA ‘package’ overall creates opportunity for business development, transfer of commercial land, joint ventures, tourism opportunities and access to housing properties for sale, leasing or development. Similarly, revenue streams from mining and from leasing or sale of land in the Oakajee Industrial Estate also form a part of the ‘package’.

It is understood that the next steps forward since the signing of the Agreement are:

- June 2020 court order for Native Title determination takes effect;
- Post June 2020;
 - Corporation begins to receive benefits;
 - Board hires CEO and staff; and
 - Land starts being transferred.

LEVEL OF SIGNIFICANCE

Medium. The YNSRA will provide ongoing social and economic benefits to not only Yamatji peoples but also the wider Midwest region

OFFICER'S RECOMMENDATION/RESOLUTION

200314 Moved: Cr Collins Seconded: Cr Coaker

That with respect to the Mid-West Secondary Grain Freight Network Project, Council:

1. Supports in principle, the Mid-West Secondary Grain Freight Network Project ('Project') as provided in *Attachment 1*.
2. Requests the Chief Executive Officer to seek funding for the Project through Federal and State Governments.

CARRIED BY SIMPLE MAJORITY 6/0

PURPOSE

Council is requested to support in principle the Mid-West Secondary Grain Freight Network Project ('Project') for roads in the Shire of Morawa and to seek an appropriate funding source.

DETAIL

In association with local government members of the Regional Road Group North Midlands Sub Group, the Sub Group has collectively considered determined State and local government roads that form Mid-West Secondary Grain Freight Network. The spreadsheet that forms *Attachment 1* identifies 12 roads/sections that are considered to achieve overall benefit for the region and the Shire of Morawa.

The Project is a local government collaborative approach in working together for a common goal. The roads and upgrades will better connect businesses to domestic and international markets via Western Australia's key ports, improving freight productivity and offering greater opportunities for business growth in the region.

Plan of Excavation Site

Refer to detailed maps included which shows transport route through property, existing tracks, tanks, water bores, and water courses. All transport corridors are on existing land routes.

Quarry will have onsite toilet and office building for safety purposes.

Excavation Program

Proposed excavation duration is for approximately 10 years.

There is no proposed clearing of native vegetation required.

Mining method is pre stripped topsoil to a dept of 250mm which is stockpiled. Push-up material to maximum depth of 5 metres. Screen material into suitable sizing for sale. Cart sellable material off site. Backfill unsuitable material back into the quarry for future rehab. Quarry pit faces will be maintained with safe working batters. Earth bunding to be used for water runoff and for safety.

Truck transport products leaving quarry will be carted in 27.5 metre road train combination, consisting of approximately 50 tonnes. Transport route from quarry will be Old Three Springs Road to Mingenew and Old Three Springs Road to Wooltana Road then Three Springs Road. Please note there are no residence living on the transport corridor.

Quarry tonnages per month are approximately 1 500 tonnes which is one truck load per day, expectation is 500 tonnes per month on average.

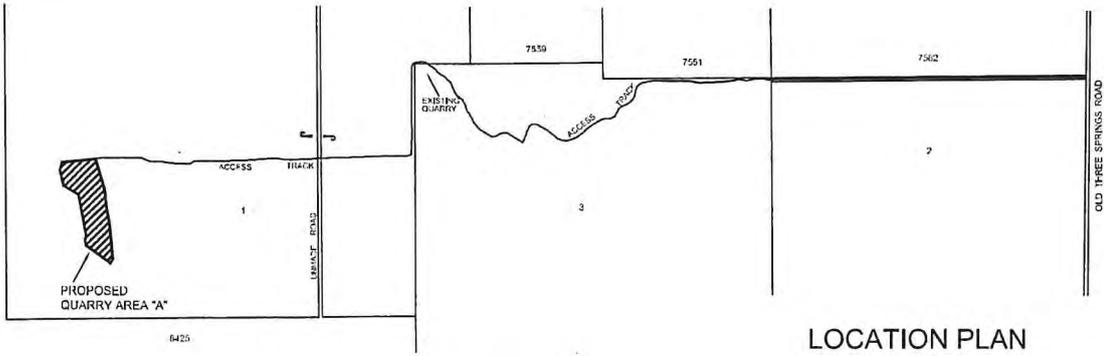

Quarry operating hours will be from 6 am to 6 pm to minimise noise to neighbours.

Ongoing road maintenance of Shire Roads, we are willing to contribute to the maintenance of the road corridor if needed over above the shire maintenance programme.

Rehabilitation

Rehabilitation will be done as ongoing works after mining and back filling, topsoil to be placed back over the mine site. This will minimise visual impact of site.

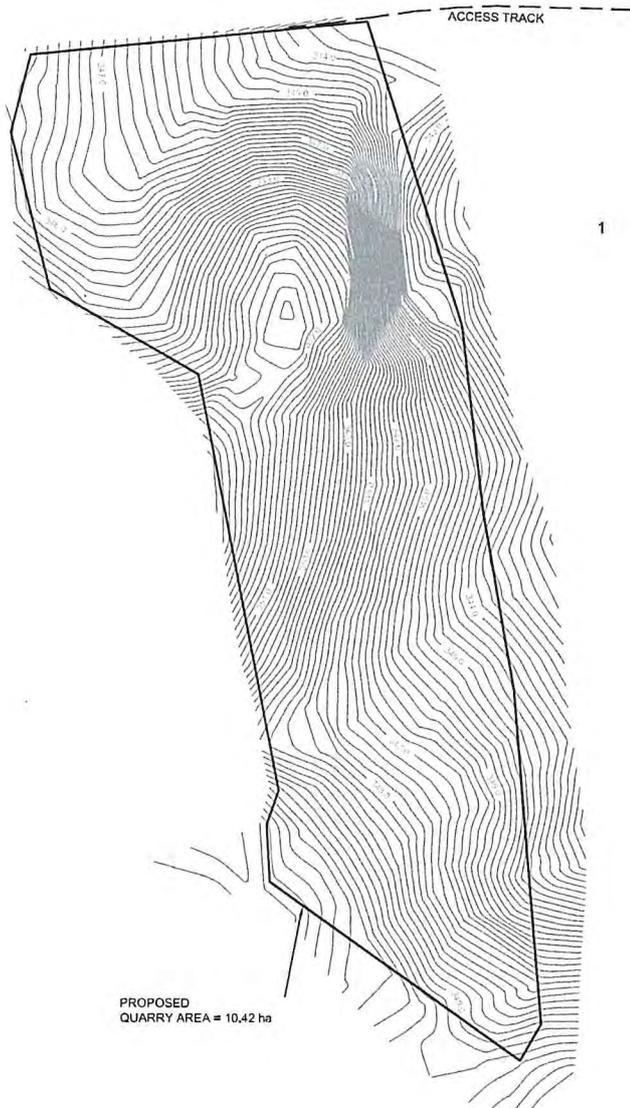

Once closure of quarry site final clean-up and covering over of material with topsoil suitable for agriculture use.

Draft conditions for conditional Planning Permit and conditional Licence for Extractive Industry at Lot 1 Old Three Springs Road ;

- a. The location and total area of the excavation is to be limited to 10.42ha as depicted on the application and clarified in writing by the Applicant;
- b. The extraction of material is limited to a depth detailed on the submitted Planning Application/Extractive Industries Licence Application;
- c. Extraction is to be undertaken entirely within Lot 1 and is to be setback a minimum of 50 metres from any boundary.
- d. The excavation is limited to a maximum of 1,500 tonnes per month.
- e. The term of licence is ten (10) years from the date of this approval.
- f. The proponent is to provide evidence that a datum peg has been established on the land related to a point approved by the local government on the surface of a constructed public road or such other land in the vicinity;
- g. The Applicant is required to provide to the local government a surveyors certificate every two years prior to the annual renewal fee for that year being payable to certify the quantity of material extracted and that material has not been excavated below the final contour levels outlined within the approved Extractive Industry Report. At the same time the Applicant will provide an update and forecast on staging for the following two-year period.
- h. Nothing in the approval or these conditions shall excuse compliance with all relevant written laws in the commencement and carrying out of the development;
- i. The excavation site is to be rehabilitated in accordance with the Rehabilitation and Recommissioning Programme specified as part of the Planning Application/Extractive Industries Licence Application for Lot 1 Old Three Springs Road, Morawa and the Shire of Morawa's Extractive Industry Local Law or any subsequent programme approved thereafter. The rehabilitation works must be completed within the first winter months following the re-establishment of the final contour ground levels and maintained for a period of three years thereafter;
- j. The applicant is required to pay an additional bond of \$..... as a road maintenance guarantee against the condition of the local government road for the distance of 100 metres either side of the entry of the Extractive Industry to Old Three Springs Road. The bond is to be accompanied by a bonding agreement and written authorisation from the owner of the land that the Shire may enter the site to complete or rectify any outstanding work. The Shire will recover the bond, or part thereof as appropriate, for any costs to the Shire in completing and/or rectifying the outstanding works. The Shire of Morawa will accept a Bank Guarantee.
- k. An update on staging will be provided to Shire every two years at the same time as the Surveyor's Certificate for material extracted;
- l. Operating hours within the extraction area shall be restricted to 7:00am and 5:00pm Monday to Saturday (excluding Sundays and public holidays);

- m. Operating hours for cartage shall be limited as follows: 7:00am until 5:00pm Monday to Saturday.
- n. The noise generated by the development is not to exceed the levels as set out under the Environmental Protection Act 1986 (and the Environmental Protection (Noise) Regulations 1997);
- o. Measures are to be taken to minimise the amount of dust pollution associated with the extraction site and are to comply with the Environmental Protection Act 1986 and Department of Environmental Regulation Guidelines;
- p. All trucks involved in the project shall comply with the standards set and road conditions applied by MRWA (Heavy Vehicles) as appropriate;
- q. The Applicant must maintain a current public liability insurance policy in which the interests of the Shire of Morawa are formally noted by the insurer, indemnifying the Applicant and the Shire of Morawa for a sum of not less than \$20,000,000 in respect of any one claim relating to any of the excavation and transport operations;
- r. The operations are managed in accordance with “Water Quality Protection Note 15 - Extractive Industries Near Sensitive Water Resources”;
- s. Any dewatering shall be in accordance with “Water Quality Protection Note 13 - Dewatering of Soils”;
- t. All truck loads leaving the site with materials are to be covered;
- u. The excavation site is to be maintained in a safe manner and a secure gate is to be installed and kept locked when the site is unmanned; and
- v. That regular monitoring and reporting during the license period occur to ensure that the measures outlined to address environmental impacts are appropriately implemented and possible impacts appropriately addressed.

MOUNT MARVEL QUARRY – MORAWA WA

PROPOSED WORKS AND EXCAVATION PROGRAM 2020

3.4 Works and Excavation Program

The works and excavation program referred to in clause 3.2(2)(b) shall contain-

(a) the nature and estimated duration of the proposed excavation for which the license is applied;

- i. *Quarrying of granites and greenstones for the recovery of aggregates tailored to meet marketable demand;*
- ii. *Five years (5), campaigned at approximately two hundred thousand (200,000) tonnes per annum;*

(b) the stages and the timing of the stages in which it is proposed to carry out the excavation;

- i. *We estimate start up to be within two to three months upon a successful outcome from the EIL application, commencing with remediating wall stability and developing and establishing the RL 274 (AHD) to proposed new pit design parameters for Pit1, referred to herein as Stage 1;*

(c) details of the methods to be employed in the proposed excavation and a description of any onsite processing works:

- i. *Surface mining, incorporating down hole, sub drill and blast methodology to design ten (10) meter faces, to be bench mined at five (5) meter intervals, excavated via double pass production convention (2 x 2.5m);*
- ii. *Processing mined product using mobile Crushing (Gyratory Cone & or Impactor) & Screening (Multi Deck, Wet & Dry) equipment for convenience of mobility and stockpiling.*

(d) details of the depth and extent of the existing and proposed excavation of the site;

- i. *Current excavations are estimated on average height to be at sixteen (16) meters mined to the RL 274 (AHD), we will reduce these to the preferred design using ten meter face parameters as outlined in (c);*
- ii. *Proposed design is to RL 260 (AHD) staging in the reduction in face height arbitrarily for better wall control (Angle of Repose), in accordance with MSIA & MSIR parameters;*

(e) an estimate of the depth of and description of the nature and quantity of the overburden to be removed:

- i. *Overburden will be predominantly at the natural surface for all excavations generally and likely to consist of laterites, shales and quartzite;*
- ii. *Overburden is estimated to be less than eight (8) percent of the total volume excavated for the life of mine (LOM), eighty thousand tonnes (80,000).*

(f) a description of the methods by which existing vegetation is to be cleared and topsoil and overburden removed or stockpiled;

We anticipate that any additional clearing to the existing 'cleared and approved areas will be minimal over the term, in the event additional clearing is required we advise the following methodology will be adopted:

- i. *All vegetation areas prior to removal will be surveyed, mapped and allocated drained, protected stockpile areas, environmentally controlled for later repatriation (motching) to the area of origin;*

- ii. All vegetation removed will be by 'fit for purpose' Surface Mining Equipment and subsequently stockpiled and controlled as regrowth media for rehabilitation and repatriation to the area of origin;
- iii. All topsoil areas prior to removal will be surveyed, mapped and allocated drained, protected stockpile areas, environmentally controlled for later repatriation (matching) to the area of origin;
- iv. All Topsoil removed will be by 'fit for purpose' SME and subsequently stockpiled for the overlaying of its original regrowth media and or for the use of seeding of native fauna for propagation of regrowth.
- (g) a description of the means of access to the excavation site and the types of thoroughfares to be constructed;
- i. The use of the existing roads already constructed and as previously used and marked on the attached plan No: 48014TS1-1-0, at this point in time we do not anticipate the need for any additional thoroughfares. Access to the RL 260 (AHD) will be via an extension to the existing in pit ramp to the RL 274 (AHD designed to a 1:10 gradient).
- (h) details of the proposed number and size of trucks entering and leaving the site each day and the route or routes to be taken by those vehicles;
- i. We estimate that based on an annualised tonnage of two hundred (200,000) thousand tonne per annum, an average of eighteen (18) thirty (30) tonne, single bogey side tippers, or nine (9) double bogey sixty (60) tonne configuration side tippers will leave site daily within a twelve hour window, likely between 05:30am WST to 17:30pm WST;
- ii. Proposed Route 1 South (Fremantle Port) :
- existing Tropiano Farm Road (est 1km) to the Pintharuka Road (SOM/Road?) connect to the Morawa - Yalgoo Road, connect to State 116;
- Proposed Route 2 North (Geraldton Port):
- existing Tropiano Farm Road (est 1km) to the Pintharuka Road (SOM/Road?) connect to the Morawa - Yalgoo Road connect to the Mingenew - Morawa Road connect to Mingenew - Mullewa Road connect to Depot Hill Road - Allanooka Springs Road.
- (i) a description of any proposed buildings, water supply, treatment plant, tanks and other improvements;
- i. Refer to Plan No: 48014TS1-1-0, no additions are envisaged at this point in time to the existing infrastructure.
- (j) details of drainage conditions applicable to the land and methods by which the excavation site is to be kept drained;
- i. The information provided on plan No: 48014TS1-1-0 depicts current site drainage convention with applicable crossfalls, relevant to the topography (and as per contour intervals) to AHD, there are no current issues with drainage.
- (k) a description of the measures to be taken to minimise sand drift, dust nuisance, erosion, watercourse siltation and dangers to the public;
- i. The site contains little to no sand as 'free to air sand content' however where the possibility of 'sand drift' prevails, they will be kept moist with reticulation and or via the use of water carts and or encapsulated and contained in waste dumps accordingly, the same methodology will be applicable to any 'nuisance dusts' across the site;
- ii. Environmental air monitoring will be conducted onsite periodically, and all results published to ensure compliance to the Environmental Protection Act 1986 (Cth);
- iii. The potential for ground Erosion and natural Water Course Siltation is covered within the drainage plan provided in plan No: 48014TS1-1-0 as mitigation for such events.

(l) a noise management plan, including a description of the measures to be taken to comply with the Environmental Protection Act 1986 and the Environmental Protection (Noise) Regulations 1997;

A Noise Management Plan is not *specifically* required for the site based on the distance from the operations, relative to the townsite (approx.12klm) however the following actions have been taken to comply with (l) and are as follows:

- i. The planting of some native trees to propagate 'screening off' of areas visible to the Public occurred prior to this application, this is also intended to serve as part of a Noise Buffer Zone, additional native plants will be added where prudent, as and if required;
- ii. A fifteen (15m) metre earthen bund was previously established around the quarry operations as a noise buffer zone and is still in place;
- iii. A Noise Monitoring Audit was previously conducted resulting in the requirement in (ii) for the establishment of an earthen bund to act as a noise buffer zone;
- iv. In the event the Principal receive any formal complaints, concerning breaches of established industry noise ordinance regulations from the Public and or the SOM, Noise Monitoring by suitably qualified industry professionals will be immediately undertaken and all results published for compliance to the EPA 1986 & the EP(N)R 1997 (Cth) and any subsequent actions required put in place immediately.

(m) a description of the existing site environment and a report on the anticipated effect that the proposed excavation will have on the environment near the land;

- i. See plan No: 48014TS1-1-0, no irreversible and or permanent adverse impacts have been identified under the EIL period nor are any anticipated for the period applied for.

(n) details of the nature of existing vegetation, shrubs and trees and a description of measures to be taken to minimise the destruction of existing vegetation;

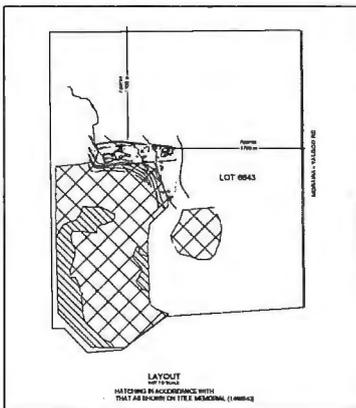

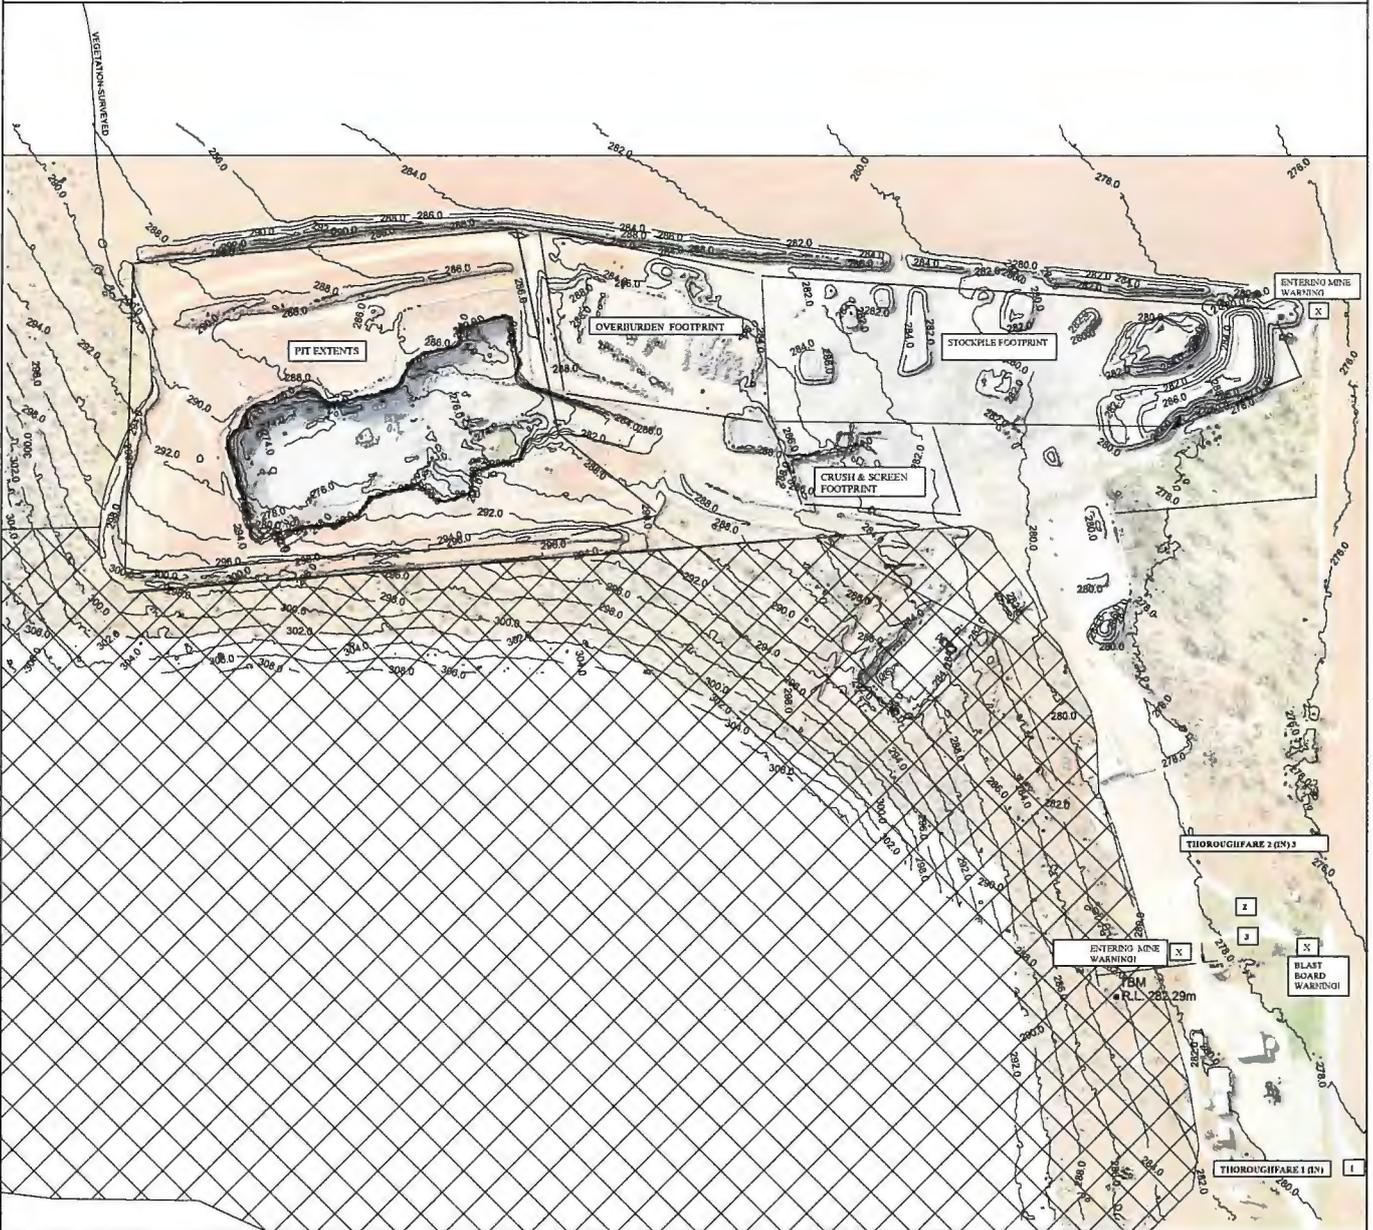

- i. No additional clearing of any areas not previously identified within the mining footprint is proposed;
- ii. A report identifying all existing Flora species, endangered or otherwise for the site has been conducted previously, these sites are now marked and registered as 'restricted areas', and are not intended for inclusion in this works and excavation program;
- iii. An internal Ground and Vegetation Clearance Permitting system will be in place to prevent the inadvertent 'clearing' of protected areas, managed by the Principal in accordance with the EPA 1986 (Cth).

(o) a description of the measures to be taken in screening the excavation site, or otherwise minimising adverse visual impacts, from nearby thoroughfares or other areas; and

The planting and ongoing propagation of native trees to 'screen off' of areas deemed visible to the Public prior, during and post the expiry of the EIL period, this will reduce any adverse visual Impacts along with generally improving the sites appearance aesthetically.

(p) details of measures to reduce impact on the adjoining owners and occupiers, and the wider community.

All actions undertaken in (h) through to (o) are identified as the veritable means to reduce any impact on the parties identified in (p), the Principal is committed to respond accordingly and or as directed by the Regulator of the EIL (SOM) to undertake any 'additional' means necessary to further mitigate impacts to those concerned.

The Western Australian Planning Commission has received an application for planning approval as detailed below. Plans and documentation relating to the proposal are attached. The Commission intends to determine this application within 90 days from the date of lodgement.

Please provide any information, comment or recommended conditions pertinent to this application by 25 March 2020 being 42 days from the date of this letter. The Commission will not determine the application until the expiry of this time unless all responses have been received from referral agencies. If your response cannot be provided within that period, please provide an interim reply advising of the reasons for the delay and the date by which a completed response will be made or if you have no comments to offer.

Referral agencies are to use the Model Subdivision Conditions Schedule in providing a recommendation to the Commission. Non-standard conditions are discouraged, however, if a non-standard condition is recommended additional information will need to be provided to justify the condition. The condition will need to be assessed for consistency against the validity test for conditions. A copy of the Model Subdivision Conditions Schedule can be accessed: www.dplh.wa.gov.au

Send responses via email to referrals@dplh.wa.gov.au. **Always quote reference number "158966" when responding.**

This proposal has also been referred to the following organisations for their comments: *Western Power, Water Corporation, Telstra, Public Transport Authority, Dept Mines Ind Regulation And Safety, Dept Biodiversity, Conser & Attraction and LG Shire Of Morawa.*

Midwest Region - Planning Manager (Statutory Planning)
Department of Planning, Lands and Heritage
Locked Bag 2506
PERTH WA 6001

Dear Sir/Madam

Proposed Subdivision: Lots 217, 516- 523, 5997, 7734, 8876, 9485 Koolanooka Spring Road, Koolanooka

Hille Thompson and Delfos act on the behalf of the owners of the above land holdings, Karara Mining Limited (Karara) and Sinosteel Midwest Corporation Limited (SMC).

The intention of this application on receipt of approval is to create a total of 7 Freehold lots. In 2010 for the construction of the Karara rail line, Karara purchased land from SMC. Pursuant to the Contract for Sale of Land, the terms of the Contract require Karara to subdivide the portion of land not required for the rail line and transfer the land back to SMC. The lots to be sold back to SMC are proposed Lots 1, 4, 5 and 6 (portions of current lots 518, 7734, 8876 and 217).

The remaining lot configuration has been altered in order to rationalise land owned by Karara to reflect their current practices to achieve better land management.

This application complies with the Western Australian Planning Commission Development Control Policy 3.4 Subdivision of Rural Land as the re-alignment of lot boundaries is not increasing the number of lots, rather reducing the total lot number from 13 lots to 7 lots and therefore is not further fragmenting the land. The proposed lot sizes range from 47ha to 1644ha which are in keeping with the Koolanooka surrounding land holdings and are suitable lot sizes under the Rural zone for rural pursuits.

Portions of the subject land are classified as bushfire prone areas under the Department of Fire and Emergency Services Map of Bushfire Prone Areas 2019.

A Bushfire Attack Level Assessment/Bushfire Management Plan in accordance with State Planning Policy 3.7 has been omitted from this subdivision application based on the following:

The proposed subdivision does not:

- Result in the intensification of development (or land use);
- Result in an increase of residents or employees;

- Involve the occupation of employees on site for any considerable amount of time; or result in an increase to the bushfire threat

The attached application mirrors the now expired WAPC Approval 152205 which was granted over these lots in October 2015. All conditions on this expired approval were satisfied and the Deposited Plan 408196 (copy attached) was endorsed by the WAPC on 4th May 2017. The Deposited Plan subsequently expired before an application for titles was completed.

If you (or any of the referral agencies) have any queries or require any further information please do not hesitate to contact this office.

Yours faithfully

Brad Collard

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 29 February 2020

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of Local Government (Financial Management) Regulations 1996, Regulation 34. Note: The Statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1995 and accompanying regulations. Material accounting policies which have been adopted in the preparation of this statement are presented below and have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 12.

SIGNIFICANT ACCOUNTING POLICES

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

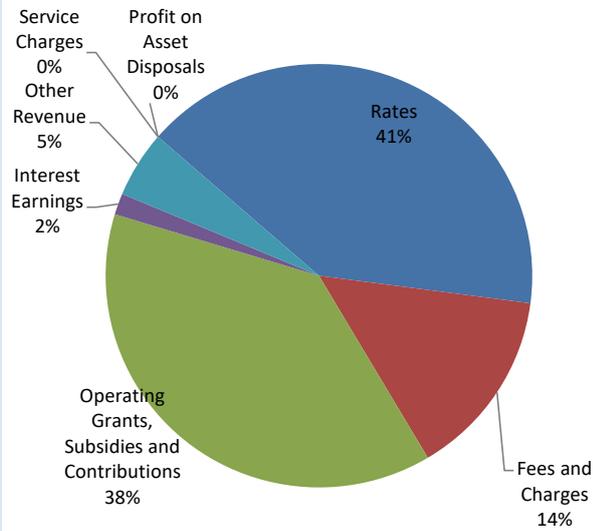

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

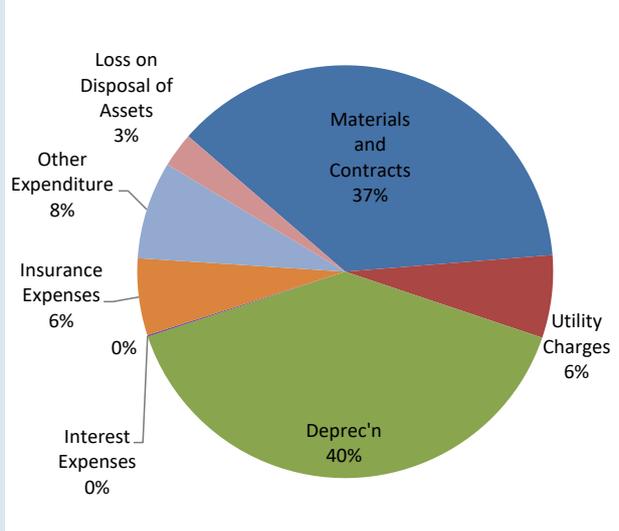

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

SIGNIFICANT ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

EMPLOYEE BENEFITS

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

(i) Wages, Salaries, Annual Leave and Long Service Leave
(Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the City has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the City expects to pay and includes related on-costs.

(ii) Annual Leave and Long Service Leave
(Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the City does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

PROVISIONS

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

SIGNIFICANT ACCOUNTING POLICIES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

SIGNIFICANT ACCOUNTING POLICIES

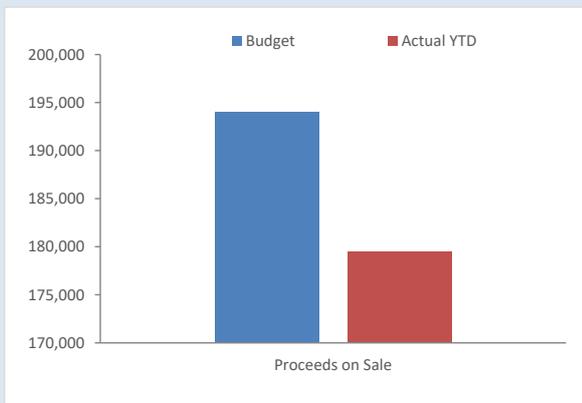

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

SIGNIFICANT ACCOUNTING POLICIES

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

▲ ▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 2 for an explanation of the reasons for the variance.

The material variance adopted by Council for the 2019/20 year is \$10,000 and 10%.

This statement is to be read in conjunction with the accompanying Financial Statements and notes.

KEY INFORMATION

▲▼ Indicates a variance between Year to Date (YTD) Budget and YTD Actual data as per the adopted materiality threshold.

Refer to Note 2 for an explanation of the reasons for the variance.

The material variance adopted by Council for the 2019/20 year is \$10,000 and 10%.

This statement is to be read in conjunction with the accompanying Financial Statements and notes.
